2008 TOWN REPORT DEDICATION

James "Bud" McEntee has been a member of this community for nearly fifty years. He has devoted his life not only to his wife, Peg, and their family, but also to the enrichment of our town. Bud, by his very nature, is a man who doesn't just speak of commitments, but rolls up his sleeves and lives it--and he gets the job done.

Bud has served six years on the Lyndeborough Central School Board as well as two terms on the Wilton Lyndeborough Co-op Board. This would be enough of a commitment for most people, but not for Bud. Perhaps it was his compassion for others or just a vision he had for the future, but he continued to serve the community by volunteering 30 years on the Wilton-Lyndeborough-Temple Ambulance Association as a member of the Board of Directors.

For 24 years, Bud facilitated the town's business by serving as Moderator. He was knowledgeable, professional and always prepared. His easy-going nature and sense of

humor made him a natural behind the podium. He had an uncanny ability to diffuse heated discussions while still encouraging lively debate. In referring to the sometimes complex nature of Town meetings many residents have said that Bud made the whole process sensible to those in attendance.

He has encouraged, by example, the true spirit of volunteerism, dedication and love of community. Included in nearly every Town meeting session, Bud reminded us all that, at the end of the day, to leave our differences behind and to remember that we are all still neighbors.

The Board of Selectmen is honored to dedicate the 2008 Town Report to one of Lyndeborough's finest and most admired figures.

Thanks, Bud, for all your hard work and efforts to make Lyndeborough the best place to call home! This one's for you!

Officials and Departments

ELECTED BY TOWN MEETING VOTE

MODERATOR

(2 year term)

Walter M. Holland

Term Expires 2010

BOARD OF SELECTMEN

(3 year term)

Andrew Roeper, Chr.

Term Expires 2009

**STATE OF NEW HAMPSHIRE
TOWN WARRANT
LYNDEBOROUGH, NEW HAMPSHIRE**

To the Inhabitants of the Town of Lyndeborough, in the County of Hillsborough in said state qualified to vote in Town affairs; You are hereby notified to meet at Center Hall, 1131 Center Road in said Lyndeborough on Tuesday, the tenth (10th) day of March 2009 at eight of the clock in the forenoon until seven of the clock in the evening, for ballot Voting of Town Officers and all other matters requiring ballot vote; and, to meet at Citizens' Hall, 9 Citizens' Hall Road in said Lyndeborough, on Saturday, the fourteenth (14th) day of March 2009 at ten of the clock in the morning, to act upon Articles 2 through 13:

Article 1. To choose all necessary Town officers for the year ensuing.

Article 2. Shall the Town of Lyndeborough vote to adopt the provisions of RSA 36-A:4-a, I(b) to authorize the Lyndeborough Conservation Commission to expend funds to 'qualified organizations' for the purchase of property interests, or facilitating transactions related thereto, where the interest in the property is to be held by the qualified organization and the town will retain no interest in the property. (Majority vote required).

Article 3. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of one million four hundred eighty three thousand four hundred ninety seven dollars (\$1,483,497), representing the operating budget for fiscal year 2009 as prepared by the Budget Committee. Said sum is exclusive of all special or individual articles addressed; or take any other action relating thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required).

Article 4. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of the sum of twenty eight thousand fifteen dollars (\$28,015) and to withdraw the sum of twenty eight thousand fifteen dollars (\$28,015) of accrued interest from the Library Expansion Capital Reserve Fund to be expended for the library addition. (Majority vote required).

Article 5. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of thirteen thousand dollars (\$13,000) to be added to the Replacement of the 2002 Rescue Vehicle Capital Reserve Fund previously established; or take any other action relating thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required).

Article 6. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of forty thousand dollars (\$40,000) to purchase an ambulance and authorize the withdrawal of forty- thousand dollars (\$40,000) from the 1997 Ambulance Replacement Capital Reserve Fund created for that purpose. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required).

Article 7. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of twenty nine thousand dollars (\$29,000) for the purchase of a new 4WD Police Vehicle and to authorize the withdrawal of twenty nine thousand dollars (\$29,000) from the Police Vehicle Replacement Fund created for that purpose; or take any other action relating thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required).

Article 8. To see if the Town of Lyndeborough will vote to discontinue the capital reserve fund established for the purchase of the backhoe (acct. # 4915-03-019). Said funds, with accumulated interest to date of withdrawal, are to be transferred to the town's general fund.

Article 9. To see if the Town of Lyndeborough will vote to establish a capital reserve fund (pursuant to RSA Chapter 35) for the purpose of replacement of the Backhoe/Loader and to raise and appropriate the sum of fifteen thousand dollars (\$15,000) to be placed in this fund; or take any other action relating thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required).

Article 10. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of fifty five thousand dollars (\$55,000) to purchase a one ton truck and authorize the withdrawal of forty-five thousand dollars (\$45,000) from the Replacement of the Highway One-Ton Truck Capital Reserve Fund created for that purpose. The balance of ten thousand dollars (\$10,000) is to come from general taxation; or take any other action relating thereto. The Selectmen recommend this appropriation. The Budget Committee does not recommend this appropriation. (Majority vote required).

Article 11. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of one hundred ten thousand dollars (\$110,000) to rehabilitate sections of the Turnpike; or take any other action relating thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required).

Article 12. To see if the Town of Lyndeborough will vote to authorize the Selectmen to accept the reports of auditors and committees as printed in the Town Report; or take any other action relating thereto. (Majority vote required).

Article 13. To transact any other business that may legally come before said meeting.

Given unto our hands and seal, this 18th day of February, 2009.

BUDGET OF THE TOWN WITH A MUNICIPAL BUDGET COMMITTEE

OF: **LYNDEBOROUGH**

BUDGET FORM FOR TOWNS WHICH HAVE ADOPTED
THE PROVISIONS OF RSA 32:14 THROUGH 32:24

Appropriations and Estimates of Revenue for the Ensuing Year January 1, 2009 to December 31, 2009

or Fiscal Year From _____ to _____

IMPORTANT:

Please read RSA 32:5 applicable to all municipalities.

1. Use this form to list the operating budget and all special and individual warrant articles in the appropriate recommended and not recommended area. All proposed appropriations must be on this form.
2. Hold at least one public hearing on this budget.
3. When completed, a copy of the budget must be posted with the warrant. Another copy must be placed on file with the town clerk, and a copy sent to the Department of Revenue Administration at the address below within 20 days after the meeting.

This form was posted with the warrant on FEBRUARY 13, 2009

BUDGET COMMITTEE

Please sign in ink.

Walter M. Halland
Barry Reynolds
Walter M. Halland
Barry Reynolds
Bruce A. Hunk
Donald D. Byrnes #3

James M. Burt
James M. Burt
James M. Burt
James M. Burt

THIS BUDGET SHALL BE POSTED WITH THE TOWN WARRANT

FOR DRA USE ONLY

NH DEPARTMENT OF REVENUE ADMINISTRATION
MUNICIPAL SERVICES DIVISION

Budget Committee Report

"I had a Juniper bush that was all ice and I jumped on it!"

Jacob Boette-First Grade

The Budget Committee operates under the authority granted in RSA 32, the Municipal Budget Act. The overall goal of the committee is to assist voters in the prudent appropriation of funds. We do so by reviewing the Lyndeborough Central School budget as well as all the town department budgets. It is the responsibility of the committee to establish a budget for both the school and the town for the coming year. Voters may decrease our suggested spending levels by any amount they wish, but can only increase them by a maximum of 10%.

Municipal spending is a function of the level of service the community wishes to fund. Department requests that reflect services previously approved, or that are for incremental changes, appear in the operating budget as a single warrant article. One-time requests or major changes are typically in their own warrant article. All the capital requests that are part of the Capital Improvement Plan are presented as separate warrant articles. The process is meant to expedite voting on the more routine and non-controversial subjects while making it easy to vote up or down all the other items.

While participation in town affairs at the Town Meeting is an important and proud tradition, the truth is that today school funding decisions have a much greater impact on taxes. County expenditures account for about 5% of the tax rate, the town 25%, and the schools 70%.

Given the very difficult economic environment anticipated for 2009, the department heads, Selectmen, and committee worked toward as minimal an increase as is responsible. The operating budget is up \$54,000 while the capital expenses are down \$60,000. Despite the net decrease in expenditures, lower revenues due to less assistance from the state or lower interest rates on our bank accounts or lower car registration fees are going to force the tax rate up. But this is beyond our control and beyond our ability to offset with expenditure reductions. The Selectmen and the committee have disagreed on how to handle the start of a CRF for the backhoe/loader account and whether to purchase the 1-ton. After four rounds of cuts we have struggled to find that line for spending below which you feel uncomfortable. But that is why we have Town Meeting and you the public will discuss these issues, among others, and decide.

The operating budget is always heavily influenced by employee wages and benefits. In general, wages are up 2% for inflation. The merit dollars have been pooled under the Personnel Administration budget line for the Selectmen to award based on employee reviews. The pool dollars were established based on an assumed average merit increase of 1.5% for all eligible employees. Health insurance costs continue to rise despite the change to a less expensive plan last year. Those currently eligible for health coverage pay 20% of the cost and the town 80%.

Most department budgets have very modest changes but the Police budget is up \$20,000 and Highway a net of \$20,000. The police budget increase is primarily in the wages lines

and reflects an attempt to be more honest about what we need to pay as an hourly wage if we are going to attract and keep well qualified officers. The full-time line assumes one seasoned officer with a pay in the \$21/hr range and one new to policing at \$18/hr. rather than both in the \$17 to \$18/hr range. In anticipation of being able to hire a new police administrator in the spring, that line is increased to reflect a 20 hour work week rather than just 16 hours. Part-time officers must be just as knowledgeable as full-time officers and are expected to handle the full range of duties so their pay should be close to that of full-time people. The part-time budget assumes an hourly rate of \$17/hr not \$14/hr.

Highway looks to be up by \$30,000 but \$7,500 is coming over from the Government Buildings line and \$2,000 is due to more state Block Grant money. Two major increases: Salt has increased substantially in the last two years. This budget finally reflects that fact. And it is recognized keeping up with our road paving is necessary if we are going to avoid even greater future expense. The Road Agent developed a plan for scheduled paving of all currently paved roads. It calls for 2 miles to be paved per year. Over a 12 year period, all roads would be repaved. Initially the cost will be shared by the paving line in the operating budget plus money from the Block Grant.

As for town warrant articles, the Committee accepted most of the suggestions of the CIP Committee as proposed in their CIP plan. That plan saw a number of changes. Mainly several of the routine Capital Reserve Funds for future vehicle purchases were either interrupted or deferred to better accommodate the new school bond and a repair project that is needed out on the Turnpike. The overall plan costs are actually down \$60,000 from last year though the Selectmen feel \$20,000 more should be spent than the committee. Please take the time to review the plan published elsewhere in the Town Report. It continues this same approach in 2010 and then road projects stop and we go back to funding all the vehicle and equipment CRFs.

Last year the Lyndeborough Central School budget was up by \$195,000 due primarily to special education related expenses. This year the operating budget is up by \$92,000 less \$40,000 in state kindergarten aid for a net amount of \$52,000 or .27 on the tax rate. Kindergarten is required of all schools by September of 2009. It is no longer optional and this budget has all those expenses built into it. Another cost driver is the SAU expense. Due to Mascenic wanting their own SAU, the budget has increased by \$30,000 to anticipate their leaving.

The bond for the addition is the big expense. A fair number of people have approached committee members about their vote in favor given these tough economic times and we totally understand the reluctance. But these are the major factors driving our decision to support. We now must have kindergarten and it must start this coming September. We either have to find a home for it at the school or place the kids somewhere else. If we elect to build a facility to house the kindergarten and we do it now, the state will pay for 75% of the cost plus the cost of furnishings and a \$1,200 per child subsidy for three years to help offset operating costs. If we decide to wait and do it later, those funds likely will not be there. State revenues are way down and they have to cut everywhere in order to balance their budget as required by law. That cost will be on us if we postpone. Two

additional classrooms are in the plan – why? First, to add on the kindergarten requires we use as a hallway what is now the library space. It is way too small anyway. We have two classrooms from the 1950's and 1960's that are around 600 sq. ft when the requirement is for 900 sq. ft. By building two appropriately sized classrooms, we assure ourselves of being able to handle larger classes (20+ kids in a grade) in all our classrooms. And those two smaller rooms can be used for a more properly sized library plus provide space for many special education functions now held in closets or hallways or in back of classrooms because no school additions have ever contemplated providing space for special education. The current facility has had some issues. Are we throwing good money after bad? No. The School Board has worked with the Fire Chief and our committee over the past few years to address most of the issues. A few remain because they are expensive. The state allows new building projects to have a certain percent of the cost be from renovation work. The critical issues like the wood storage in the hallways will be addressed by the addition. Some things like improved ventilation will not be totally solved but, another reason to support the project, low bids due to a depressed economy, might make funds available to do more than now contemplated. Parking and access issues are going to be addressed. The kindergarten room is being built to a higher standard so we can use it as a community shelter in emergencies. All the non-kindergarten expense will be eligible for what is called "building aid" and that covers 30% of the cost. That could go to 40% if the Consolidation plan is approved. Also, the Capital Improvement Plan has been revised to make room for our \$665,000 share of the cost of the project thus minimizing the tax rate impact. We will have to pay interest on the 10 year bond but interest rates are at all-time lows plus the amount of "building aid" will more than cover the interest expense. All things considered, the committee feels this is an excellent plan that addresses a multitude of needs and should take us well out into the future at a cost we will not be able to match if not done now.

In closing, I would like to thank the members of the Budget Committee for their time and effort. The committee thanks the School Board, the Selectmen, and all the Department Heads for their cooperation. We also want to acknowledge the efforts of the Capital Improvement Committee for their difficult work in trying to address all the major capital needs of the town.

Respectfully submitted,
Burton Reynolds, Budget Committee Chairman

2009 Capital Improvement Program (CIP)

During the ice storm, it was like living in the old times when people didn't have electricity. We had to carry our water, chop wood, make fires to stay warm and cook on a gas stove."

Alanna Patten-Sixth Grade

The CIP is the process of reviewing the capital needs of the town and school and developing a savings and spending plan so as to minimize severe swings in our capital costs. The overall goal of the plan is to fund these needs in a way that, from year to year, results in a minimal impact on the tax rate. One of the chief financial tools used to accomplish these results are Capital Reserve Funds or CRFs. These voter established funds allow money to be set aside in an interest earning account so sufficient funds will be available for a specific capital purchase. These funds are managed by the Trustees of Trust Funds and cannot be co-mingled with any other monies. The other primary funding tool is called bonding. A bond is like a home mortgage in that it is paid off over time with payments that include both principal and interest. This approach is used when funding by a CRF is impractical given the expense or timeline involved.

The CIP Committee meets with each department that has major capital needs. The Selectmen review each town department request and the LCS School Board prepares the one for the school. The Committee creates a plan that attempts to keep the bottom line total to be spent over the six years of the plan as level as practical. It is our hope that this approach will give voters the confidence to approve the capital spending items on the warrant without the fear doing so will cause the tax rate to spike upward. Approval also avoids the ancillary problem where things don't get funded but the need remains causing too many costs to come due at once resulting in a tax rate spike. When you step back and total all the buildings and pieces of equipment we have plus the roads, the infrastructure values are substantial. The CIP Committee's task is to keep this infrastructure working for the citizens of the town at a cost that is affordable.

We offer these brief remarks to help explain what is taking place with the various accounts in the plan.

Fire Department: Each truck is listed with a proposed date for replacement. In general, the life of a truck is around 28 years. The plan lists what is expected to be the replacement price with a CRF amount sufficient to provide the funds that will be needed by the replacement date. Given the tough economic times it was decided to take a two year break in funding the CRF for the '94 pumper replacement. The Fire Chief also felt the '84 tanker was in good enough condition that it's replacement could be delayed two years to 2014 allowing no payments in the CRF for 2009 and 2010. The substation concept placeholder now is assuming a building near the center to better serve the town. Further refinement will take place over the next few years. For now, a cost of \$250,000 is the estimate with the cost being funded via a bond.

Police Department: The police vehicle rotation is based on moving from one sedan and one four wheel drive to two four wheel drive vehicles. These would be of the Ford Explorer size rather than the Crown Vic sedan and the Expedition we have now. Based on the expected annual mileage in these future years and the desire to replace between

90-100,000 miles, a four year cycle is planned. Replacement of the '04 Expedition is due in 2009 and there is enough money in the CRF to cover the cost.

Highway Department: The equipment needs of the department are based on the concept of two two-man crews available to work separate projects at one time. Given when equipment needs to be replaced, only the large backhoe/loader CRF is being funded in 2009 and there is \$10,000 in funds going toward the purchase of a second small dump truck. One point about the two backhoes in the plan; Most Highway Departments have a loader; we do not. The '99 backhoe, bought used, is a large machine and given the size of the bucket can serve as our loader plus handle larger backhoe jobs. The backhoe purchased last year is a smaller machine and is more practical for many jobs plus it supports the two two-man, working-crew concept. Thus Lyndeborough has a grader and two backhoes while most departments have a grader, a loader, and a backhoe.

Selectmen: The current plan has no spending items for the Selectmen's office.

Ambulance: We have 2 ambulances, a 1997 and a 2001. Purchase of a replacement is planned in 2009 for about \$160,000 with our 25% share being \$40,000 which is already in the CRF. How future replacements will be funded is still being discussed.

Schools: The "school bond committed funds" listing at the bottom of the plan worksheet page is for the ongoing CO-OP bond being funded within the school operating budget. The "LCS Addition" is a 10 year bond to fund the proposed kindergarten program and two additional classrooms. Even if this construction proposal is defeated, there will be kindergarten in September 2009. It is state mandated. The question is where will it be located? Either we make room for it at the school or have it elsewhere. The committee believes that given the 75% state funding for building and contents costs related to kindergarten, it makes the most sense to have it at the school. As for the two classrooms, the addition allows for new standard 900 sq. ft. classrooms leaving the older smaller rooms to be used for special education needs and library/media room needs that now have insufficient space. The bond covers this addition plus our 25% share of the kindergarten costs. By referring to the CIP worksheet you can see the overall plan incorporates this bond and still keeps the bottom line total for all capital expenses to a modest increase in future years.

Library: The plan has no additional funds for the library addition. There is interest money still in the old CRF account and the trustees may ask your permission to use that interest towards the addition's expenses and then close the account.

Infrastructure: Road Improvements was a new category in 2006 and is scheduled for fluctuating funding over the life of the plan. As the town grows, certain roads will need to be improved to safely accommodate the increased traffic on them. The operating budget primarily funds maintenance of the roads plus minor road improvement projects. There is \$110,000 in the plan for 2009 to totally rebuild a portion of our section of the 2nd NH Turnpike. The project will include new drainage, a new road base, and new

pavement. That work will be subcontracted out. The Police Department does need more space but that discussion is awaiting a new head of the department so they can be part of the decision-making process.

The CIP Committee would like to thank the Selectmen, the School Board, and the Department Heads for their assistance in reducing the overall CIP spending for 2009 while at the same time not placing in jeopardy any of the projects/equipment purchases for either 2009 or the other five years of the plan.

Respectfully submitted,

Burton Reynolds

Selectmen's Report 2008

"I slept downstairs with my dog to keep her company in the dark".

Katya Lutz-Fourth Grade

After a rather tumultuous 2007, every effort was made to achieve a quiet and low key year. We almost made it. A severe ice storm on the evening of 9 December presented some of our biggest challenges ever. Once again, the citizens and staff of the town showed they were up to the challenge. Some were without power for nearly 2 weeks and we all will have much to pick up when the snow melts. Damage was widespread throughout town with higher elevations suffering the most damage to trees and utility lines.

In January, a police study committee was formed to look at potential future directions for the department. This advisory committee worked with Municipal Resources Inc., who had been retained by the town to assist us in this effort. The result was a carefully considered effort that included community input and thoughtful discussions. In February, the town and former Chief Basinas reached an out of court settlement at the recommendation of the town's insurance company. Regretfully, this was followed by another lawsuit challenging the validity of the special town meeting. We stand firmly by the town and await final outcome of this unfortunate episode so that we may all move forward. Also in February, an update of the Center Hall kitchen was undertaken by Karen Grybko, Arnie Byam and others, resulting in a much more usable facility. March found us at town meeting and also found the Board of Selectmen starting a comprehensive review of town policies.

In the spring we met with the school board to address concerns over the plowing of the school and came to a mutual understanding. Work on the Gulf Road Bridge started with tree and pole work. May found Gulf Road flooded again by errant beavers. The fire department got a survey (with a few surprises) and new pavement out front. June found the start of a monthly pot-luck community supper that has become a regular event for many in town, being held at Center Hall in the summer months and Citizen's Hall in the winter months.

The heat of summer just seemed to be the right time for the Historical Society to go through the upstairs of Center Hall and sort out the good stuff from the mouse nests. Most of the "finds" have been boxed and stored elsewhere. Later in the summer our Road Agent presented the new town dump truck, which incorporates several features that will make it far more useful than previous trucks. September provided one of our largest turnouts ever for the Presidential Primary and also found Town Administrator Neal Cass announcing that he would be leaving for another position.

As fall approached we continued our review of positions and functions, meeting with the Building Inspector and starting a review of the Town Forester position. Work continued on an updated road plan and we brought on Jim Bingham as our new Town Administrator. As the year closes, we have made it through another set of challenges. With everyone working together we will continue to progress.

Sincerely,

Andrew Rocper for the Board of Selectmen

Town of Lyndeborough

Report of the Town Administrator

"We stayed at my grandparent's house for a few days during the ice storm and then my brother said, "What about the hamsters?" so we went to our house to get them. When we got there, there was frost on the cage. The hamsters lived and are still hamsters."

Dean Labrie-Fifth Grade

As Lyndeborough's second Town Administrator, I began my service to the town late in the year and I am convinced that the timing could not have been better. I not only received a very warm welcome from the citizens of Lyndeborough, which I very much appreciated, but more impressively, I witnessed the strongest sense of community resilience and spirit that I have seen in many years. The December ice storm brought devastation and extreme hardship to many parts of the state and particularly to this region, yet the way in which the elected and appointed officials in this town sprung into action and were so vigorously supported by the outpouring of teamwork from the volunteer groups and citizens was awe inspiring. I knew then, that I was fortunate and proud to be working for Lyndeborough and being a part of this legacy.

Budget sessions were well begun when I came on board and I greatly respect the dedication of both the Board of Selectmen and the Budget Committee in looking at all aspects of the department and committee budgets in their effort to keep operating costs down while still providing needed services. In these difficult economic times, it has been especially challenging for these bodies to find a balance between cost-cutting for the present while not leaving the town unprepared for the future, especially as the forecast for non-tax revenues are so weak. Special thanks go to Burton Reynolds, the Budget Committee Chair, for his counsel and assistance as I worked through this process.

In the coming year, I plan to continue working on the goals and objectives begun by my predecessor in developing standardized policies and procedures for the administration office. These policies and systems will be reviewed and evaluated by the Board of Selectmen for possible adoption. Systems will be put in place for the periodic review of our operation so that our efficiency continues to improve.

Kate Brindisi, the office secretary, has assumed much more responsibility in this past year in her expanded position as Selectmen's Assistant. Kate is the administrative support for all land use activities in town in addition to the many secretarial responsibilities. Kay Hopkins, our bookkeeper, had to take a medical leave at the end of the year and Gail Hoffmann graciously returned to handle all the year-end budgeting tasks and financial requirements. It is a pleasure to work with these dedicated professionals who work hard to provide the town with the service it deserves. What they do, is greatly appreciated. We all look forward to serve you in the next year.

Respectfully submitted,

Jim Bingham, Town Administrator

2008 IN REVIEW

"I learned many lessons and helped some people. I learned that not everything relies on electricity and that we can all pull together in tough times. I also learned that it feels good to help people and have people help you."

Parker Coleman-Sixth Grade

This year will be remembered as The Year of the Ice Storm. The storm hit during the night of Dec. 11, deposited over an inch of ice in all parts of town, broke numerous trees and utility poles, blocked roads, and left some people without electricity for up to two weeks. But townspeople came together to help each other, assist the road crews in clearing, and generally support each other through the cold and dark.

While some issues are still pending in the police department, the selectmen contracted with Municipal Resources to do a study of the police department and make recommendations. Michael French was hired as interim administrator.

Our town administrator, Neal Cass, left us for a similar job in Antrim, and we have acquired Jim Bingham from Goffstown to fill his shoes.

Edna Worcester left us in August in a memorable way, going "out with the bang" as said she wanted. Her ashes were scattered across the field behind the Town Hall via the Lafayette Artillery Company's brass cannon. The Artillery was one of the main interests in her life. Another of our older citizens, Essie Simpson, died in June after a period in a nursing home. She and her husband Carroll, who died last year, had lived in town since 1934.

Babes in School Land closed. The pre-school had occupied the lower level of the Village Church since 1974. Changes in the state laws were a main reason for the closing.

But it wasn't all sad or bad. The Maple Guys, Chris Pheil and Chris Schoen, were again named winners of the Carlisle Trophy for the excellence of their syrup.

In North Lyndeborough, Hollis Proctor donated a number of mature ash trees to the Wampanoag Tribe on Cape Cod to help them preserve their long house building traditions.

The upper floor of the Town hall was finally cleaned out and the building professionally evaluated. It isn't going to fall down anytime soon and a restoration plan is being prepared. The hand painted stage backdrop will be assessed in the spring and decision made for its preservation by the Historical Society.

Joe Trudeau made a natural resources inventory of the town, cataloguing the various trees, plants, and other natural things, for the Conservation Commission.

The Heritage Commission is still offering signs for historic houses and is compiling a map of man-made structures, foundations, cellar holes, monuments, etc., and at the same time collecting "stories," the memories of the older residents for preservation.

Police Department

"My dad and I walked up my driveway to my neighbor's house. His driveway was a mess. We helped him clear his driveway with a tractor. I had fun looking at all the icy trees."

Nick Ramsey-Fourth Grade

The Police Department provides general law enforcement coverage for the Town through the use of full and part-time law enforcement officers. Generally, officers are on-duty 16 hours per day, with on-call coverage by the New Hampshire State Police or Lyndeborough officers for those time periods when an officer is not on duty.

The department is allocated two full-time officers, several part-time officers, one School Crossing Guard and a part-time Administrative Advisor. Office support is provided by a very dedicated civilian volunteer. At present, one of the full-time positions is unfilled due to an on-duty injury.

The past year has been one of challenges, uncertainty and progress for the department. In addition to response to calls for service and enforcement actions the department has been busy with other functions. Development, enhancement, or modification of the Written Directives System is on-going. These policies and procedures are necessary to assure an appropriate consistent response to the needs of the community that is based on best practices in law enforcement. In addition, several internal systems have been put in place including a more consistent method to track the daily activities of on-duty personnel, inspection and inventory of equipment, and properly documenting personnel and training activities.

The department responded to 542 calls for service during the past year. Not included in this number are arrests (22), motor vehicle enforcement (587), and traffic crashes (18). Fortunately, there were no traffic related fatalities. It may appear that this number is low in comparison to past years. It is however, a much more accurate indicator of actual calls for service. Major cases investigated during the year include, sexual assault on a child, burglary, embezzlement, felony level thefts, assaults, and domestic violence situations. A listing of the some of these categories can be found at the end of this report.

The ice storm of 2008 presented challenges to such a small agency with limited sworn officers. The response from the department was immediate, appropriate, and sustained. Officers utilized the All Terrain Vehicles in the beginning stages of the storm to access blocked roads and driveways to check on the more vulnerable residents. Department members continue to work with the Board of Selectmen, other Town Departments, and the NH Bureau of Emergency Management to improve response capabilities where necessary.

The following summary reflects some of the more common categories of officer activity:

ACTIVITY SUMMARY

Physical Arrests	22
Domestic Violence	6
Assault	2
Sexual Assault of minor	1
Criminal Threat	3
Harassment	8
Theft	12
Burglary	4
Animal	47
Civil	41
Sex offender Registration	4
Suspicious Activity	12
Missing person	4

Finally, we would like to thank the citizen's for their cooperation and support. Crime Prevention is everyone's business and with your help we can continue to help make the Town of Lyndeborough a safe and pleasant place to live and work.

Respectfully Submitted,

Michael T. French
Administrative Advisor

2008 Fire Department Report

"My dad is the Fire Chief and boy did he have a LOT of calls!!! I saw a tree on a wire, a car off the road and power trucks zipping by our house. I played games, harassed my brothers and had fun being with my family. But the computer did not work."

Mitchell McQuade-First Grade

The Lyndeborough Fire Department responded to a total of 130 calls for 2008, down 18% from last year. The calls break down as follows.

Med calls	57	Lightening Strikes	1
Structure Fires	1	Missing Person Search	3
Chimney Fires	11	Power Lines Down	7
Mutual Aid Given	7	Service Calls	11
Motor Vehicle accidents	10	Propane Leak	1
Brush Fires	3	Lockout	1
Fire Alarm Activations	9	Good Intent	3
CO Detector Activations	4	Car Fires	1

This year we are happy to report that there were no major structure fires in town. In early January, a small car port was destroyed by fire on Holt Road and a car being stored under it was also lost. Due to an increase in oil prices, chimney fires were up drastically from last year. We remind all residents to clean your chimney monthly during the burning season. This past year we also saw an increase in Carbon Monoxide related emergencies. Residents should have a working CO detector on every level of their home. Annual Fire prevention training is conducted at the Elementary School working with all 6 grades. We teach stop, drop and roll, Crawling low in smoke and, perhaps the most important is having a family escape plan. This training is serious but a fun way for the members of the fire department to interact with these youngsters. All of the members hope that we have planted a seed that may in the future help to save lives. Special thanks to Sherry Whitmore who takes on this responsibility every year.

Mother Nature appears to be reminding us annually that she calls all the shots. This year December's ice storm kept the members of the fire department extremely busy. The Emergency Operation Center was activated and helped to coordinate deployment of resources throughout the town. Members of the fire department, working with the highway department, spent the first few days doing what we called a "primary cut". This primary cut opened up roadways allowing emergency vehicles to be able to respond anywhere in town, with the exception of the areas that had possible live wires. The third and fourth day was spent doing a secondary cut, opening roadways to normal travel widths. Volunteers and Fire Department Auxiliary members tried their best to go door to door checking on residents and ensuring that they had the necessary resources such as water and blankets. As roads started to shut down from trees and branches falling, a decision was made to move an ambulance to the fire station to provide EMS coverage to the town. These types of weather events show what the residents of Lyndeborough are made of. Small pockets of residents came out to help clear roads and most importantly check on their neighbors and friends. Phone calls were made to residences with either special equipment or skills that came to the EOC to assist. I would like to thank everyone who came out to help either the fire department or their neighbors.

2008 was a busy year around the firehouse. Many projects were underway, a few contracted out and many done through the volunteers of the department. This year a long wondered question (by some) was answered; where is the septic system at the fire station? It was located thanks to Chris Covell who used some of his equipment to help us locate the tank and system. Once this

was down a new septic riser was installed and the driveway was repaved. The driveway had a very large pothole that over the years was getting larger and the pitch of the driveway was forcing rainwater to run towards and into the building. The floor was bead blasted and received a new epoxy finish. A new side door was installed and a new combination lock put in. The first and second floor was spruced up with new paint. Several trees were removed from the back of the station that were dangerously leaning over the building; this allowed us to add a few extra parking spots, which are always helpful in the tight parking area around the station. Probably the biggest project that was taken on by the members of the department was the installation of new insulated windows on the first and second floor. These windows are a huge help in the heating of the building and a significant difference from the non-insulated weighted pocket style windows of old. The new windows should help conserve heat and increase efficiency of the building. I would like to extend many thanks to the members of the department that gave up so much of their time this year to help get these projects done and save the town so much money.

This year the town lost a great public servant who did so much for others. Betty Stevens was so well known by so many for her countless accomplishments. Members of the fire department will remember her for her years of dedicated service to the Ambulance and years of instructing EMS courses. When Betty was instructing a course, she taught you not only how to treat a person medically, but how to treat a person emotionally. She taught you to care for them with compassion and make them feel like whatever their medical needs were, you were going to help them. I remember her saying to me when she was instructing a first responder course "the patient has to believe that you have the skills to help them, if they don't, they'll want the person behind you to step in." She also had a great sense of humor. Betty, you will be missed and thank you for all that you did and the many people that you touched.

I would like to welcome aboard new member Tyler Brown. The members of the department wish Mike Jarest and Drew Davis best of luck as they have left the department. Mike moved away to explore a career in firefighting and Drew moved away to serve his county in the Marines.

In closing, I would like to thank Doris Kelly for her time as the Fire Department Auxiliary leader. Doris has stepped down and Debbie Leavitt has stepped in as her successor. Many people do not understand the time and effort the Fire Department Auxiliary puts into fund raising and helping our community. I would also like to thank the members of the department, the officers staff, town office staff, the Board of Selectmen, other Town Department, and of course you the people of Lyndeborough who continue to support us.

Thank You
Rick McQuade
Fire Chief

Report of Forest Fire Warden and State Forest Ranger

Your local Forest Fire Warden, Fire Department, and the State of New Hampshire Division of Forests & Lands work collaboratively to reduce the risk and frequency of wildland fires in New Hampshire. To help us assist you, please contact your local Forest Fire Warden or Fire Department to determine if a permit is required before doing ANY outside burning. Under State law (RSA 227-L:17) a fire permit is required for all outside burning unless the ground is completely covered with snow. The New Hampshire Department of Environmental Services also prohibits the open burning of household waste. Citizens are encouraged to contact the local fire department or DES at 1-800-498-6868 or www.des.state.nh.us for more information. Safe open burning requires diligence and responsibility. Help us to protect New Hampshire's forest resources. For more information please contact the Division of Forests & Lands at (603) 271-2214, or online at www.nhdf.org.

Spring fire season lasted unusually long this past year, with very high fire danger stretching into the first week of June. Once again, the rains started to fall during the summer and the fire activity was fairly light for the remainder of the year. The acreage burned was less than that of 2007. The largest forest fire during the 2008 season burned approximately 54 acres on Rattlesnake Mountain in Rumney on White Mountain National Forest property. Another 39 acre fire occurred on Mount Major in Alton during the month of April. Our statewide system of 16 fire lookout towers is credited with keeping most fires small and saving several structures this season due to their quick and accurate spotting capabilities. Many homes in New Hampshire are located in the wildland urban interface, which is the area where homes and flammable wildland fuels intermix. Several of the fires during the 2008 season threatened structures, a constant reminder that forest fires burn more than just trees. Homeowners should take measures to prevent a wildland fire from spreading to their home. Precautions include keeping your roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home free of flammable materials. Additional information and homeowner recommendations are available at www.firewise.org. Please help Smokey Bear, your local fire department and the state's Forest Rangers by being fire wise and fire safe!

"I would love to be a pioneer."

Joshua Pouliot-Second Grade

The year began fairly quietly, with the LEPC working to finish projects that had been started last year, and to map out our goals and projects for the upcoming year. Experience had shown that it was best to plan modestly, expect difficulties, and hope to accomplish most of our goals. As it turns out – this was a good strategy.

First on our list was completion of the town's Hazard Mitigation Plan. This project was started last year with guidance from the Nashua Regional Planning Commission. The plan underwent a preliminary review by the State, and was returned to us with comments. We met several times after that to address their issues and to incorporate changes to the plan. Most recently we received notification that FEMA had conditionally approved our plan, pending adoption by the local governing body - typically done by a public hearing. I expect that hearing will happen in early 2009.

Another project that saw progress was the emergency generator for the Central School/Shelter. During the summer, a trench was dug from the school building to the generator site, conduit was installed and buried, and the transfer switch was attached to the building. Tasks remaining are pouring of the concrete pad, installation of the propane tank, and final electrical and plumbing hookup. We expect to finish the project in early spring. Special thanks go to Donnie Sawin for coordinating most of the work at the school.

A new project was brought to the attention of the LEPC by Health Officer Cyndi Geiger. The Community Emergency Response Teams (CERT) Program is a training program available through Citizen Corps. Its goal is to provide education and training to volunteers so they may participate in emergency preparedness and emergency response activities. CERT training includes instruction on disaster preparedness, fire suppression, medical operations, light search and rescue, psychology and team organization, and disaster simulation. Our plan is to establish a CERT Team in 2009. More information is available at the Citizen Corps website, (<https://www.citizencorps.gov/cert>).

The year ended with a bang – the Ice Storm of 2008. This was our third incident that required us to open up the Emergency Operations Center in as many years. The generators at Citizens' Hall and the Fire Department worked flawlessly throughout the ordeal to keep us connected with each other and with external emergency agencies. We moved debris, performed welfare checks, distributed blankets and water, and provided critical information to both PSNH and TDS. A huge "Thank You" to all Town employees, volunteers, and citizens who answered the call, allowing us to achieve one of the best responses in the region.

Steve Brown
Emergency Management Director

LEPC Members: Town Administrator Jim Bingham, Jim Button, Health Officer Cyndi Geiger, Road Agent Kent Perry, Ambulance Director Carylyn McEntee, Fire Chief Rick McQuade, Police Officer Donnie Sawin, Central School Principal Sue Tussing

REPORT OF THE ROAD AGENT FOR 2008

"The ice storm in December was lots of trouble and lots of fun for me.

It was the longest ice storm I've ever seen."

Connor Melrose-Sixth Grade

2008 was a busy and and productive year for the highway department. The springtime was fairly mud-free and flood-free so we were able to dive right into our two warrant article projects. Work on Pettingill Hill Road and Old Temple Road was a year behind because of the floods, and improvements to parts of Mountain Road were in the works for this year. The four highway department workers were split into two teams, with a backhoe for each job, and rental equipment was moved back and forth between the two teams depending on the work done. The Highway Department procured two new high quality pieces of equipment; the 410 Caterpillar Backhoe and the Volvo Dump Truck, at very good prices and well within budget.

The Mountain Road project had to be finished before school started and within the paving schedule for the season. The road bed was made of unsuitable materials, like clay and loam, which is very bad for keeping pavement from heaving and cracking. Consequently, three large sections had to be dug up and trucked off. Culverts had collapsed and had been improperly installed with no pitch, which is needed to flush silt and leaves out of the pipe. A headwall near the fire pond at Van Ham's had fallen over as well, and the road was undermined and dangerous for anyone who wandered too far off the side. All needed improvements were accomplished on schedule. However, the escalating price of oil, which doubled the price of asphalt, forced us to do less paving in order to remain within budget.

The Pettingill Hill Road project was all dirt work. The road was raised above the water table, culverts replaced, and banking of rubble moved down to a very deep hole. A large chunk of land owned by the town was pushed into the hole, raising the road bed five feet and making a much more gradual pitch and better sight distance. This job was also finished before the school bus began to run. The other major

project in town this year was a new bridge on Gulf Road. This job was subcontracted out and work began in the spring. Large rocks were harvested from the sides of Winn Road to help form side ramps that were in keeping with the antique look of the old construction. The bridge is constructed of wood, and in the spring it will be paved and guardrails installed.

As these jobs were accomplished the regular chores of road grading and mowing were done, along with the constant maintenance of machines. After school started we concentrated on roads away from the bus routes. We also made some changes at the loading areas for sand and installed a new driveway for the salt trucks. The stockpile of sand was increased, sanders

repaired, plows checked and the salt stockpiled as we looked forward to a normal winter – well, we all know how that turned out. The December ice storm tested us all.

An aggressive paving plan will be put forward in order to prevent further break down of our paved roads, and the CIP committee has a realistic plan for replacement equipment for the future. There is plenty for us to do, whether Mother Nature cooperates or not.

Sincere thanks go to my hard-working crew – Mark Chase, Mel Rossi and Ronnie Dunn.

Respectfully submitted,

Kent Perry

Ice Storm aftermath by Karen Holland

Wilton-Lyndeborough-Temple Ambulance Service

"Living without power is hard. I learned how much I take for granted. I appreciate things more after a long day without power."

Alex Schoen-Sixth Grade

This year marks our 35th year serving the residents of our Towns. It is hard to believe that from the little station in the Wilton Town Hall with a few very dedicated volunteers, to an ambulance service that offers Paramedic level care 24/7, we have come so far.

On January 3, 2009 we lost one of those volunteers, Elizabeth Stevens, our 1st Chief, without her, this service would not be what it is today.

It has been another very busy year for Wilton-Lyndeborough-Temple Ambulance Service. We have responded to 455 calls for medical aid this year. These calls are as diverse as the most critically injured motor vehicle accident patient to a heart attack patient. We train many hours every month to stay proficient in our skills, and up to date in the latest and best emergency care to offer to our patients.

In the early hours of December 12, 2008, an ice storm roared into the Monadnock Region, that was the worst storm in most of our memories. We serve three Towns and we also share some of our membership with the Lyndeborough Fire Dept and the Temple Fire Dept so we were short handed. We sent a crew to the Town of Lyndeborough (staged at the LFD) with an ambulance and a crew to Wilton with an ambulance (staged at WFD), as we would be better able to access Temple from the Wilton station. We were very busy for the next 9 days with calls and checking on our residents in our three towns and helping our neighbor, Greenville. The ambulance bay had power sooner than most of our residents and we were able to keep our ambulances at required temperatures and they only had to "sleep over" at the above fire stations 2 nights. We would like to thank both the Wilton and the Lyndeborough Fire Dept for their hospitality.

Most of all, a huge THANK YOU to the EMTs, EMT-Is and EMT-Ps who worked tirelessly to make sure everyone was safe and sound and had everything that they needed. Our towns are so lucky to have all of you!

Thank you to all that continue to donate to our Capital Fund for our Monitor/Defibrillator.

Respectfully Submitted,
Carylyn H. McEntee, Paramedic/Director

Report of the Meetinghouse Committee

"One night we had to go to my friend's house because our house was too cold. Her 14 year old, big sister and us chewed white lifesavers and made sparks in our mouths. We also made sparks with our pants and a sock."

Naomi Lewis-Fourth Grade

The Meetinghouse Committee meets monthly to advise the Board of Selectmen on the care and maintenance of both the Town Hall and Citizens' Hall. The Town Hall is listed on the National Register of Historic Places as part of the Lyndeborough Center Historic District, while Citizens' Hall is on the National Register as a freestanding structure. Both buildings need maintenance plans, the creation of which we hope to assist with in 2009. Currently, the condition of the Town Hall occupies most of our time, since it is the older of the two buildings and has undergone only minor renovations since the 1930s.

The Town Hall has seen a number of improvements this year. The Selectmen added a new light fixture to better light the parking lot, and Andy Roeper restored and installed windows in the anterooms. Over the summer Jessie Salisbury, Lucy Schmidt, Stephanie Roper and I removed most of the Lyndeborough Historical Society's holdings from the attic. One of the items we located was the original stage backdrop. The Historical Society plans to have it assessed and, if necessary, repaired. Perhaps most dramatically, a group of civic-minded residents updated the kitchen area, making it a safer, more logically arranged and hygienic space in which to prepare food. For this we want to thank everyone who contributed, particularly Karen Grybko for coordinating the renovations.

Yet much needs to be done over the next several years. In early 2008 we received a structural report on the Town Hall indicating that while the building is in good condition, the iron rods which were inserted to strengthen the roof have become loose and the joints have spread. We believe the rods were introduced after the roof was raised, either when the building was expanded in 1883 or when the attic was renovated in the 1930s. Regardless, the roof needs to be stabilized before the situation worsens.

Despite some later updates, much of the electrical system apparently dates from the 1930s and should be inspected. Most of the windows that have not yet been restored still need to be addressed, the front door needs restoration work, and the box gutter on the ell, ramp caps and ramp railing need to be replaced. We were able to locate some of the historic architectural details that have been removed from the Town Hall over the years, giving us hope that eventually we may be able to restore the shutters—which were removed sometime in the early 20th century—to the building.

The list of needed repairs to Citizens' Hall is relatively modest. The chimneys need to be repaired, the roof should be inspected to determine whether or not it needs to be replaced (it was last replaced several years prior to the building's renovation), and water damage to the second-floor walls and ceiling needs to be addressed. We would like to see alterations made to the historic front hallway since 2004 made more period-correct. Meanwhile, this year the Meetinghouse Committee looked at the possibility of replacing the circa-1920s electric lights on the second floor. After an exhaustive search, however, we have not been able to find light fixtures approximating the original 1889-1920s gas lights, so the committee will continue to investigate possibilities.

The committee is pleased to report that the Town Hall is being used for a variety of community functions. The Historical Society displayed some of its artifacts at an open house in June, and the building was a focal point of the community celebration and Lafayette Artillery encampment in August. The building also was the site of three elections, monthly community suppers, and several private or semi-private events.

For me personally, the most notable of these events were a celebration in appreciation of, and another in memory of, Edna Worcester. Edna was instrumental in the renovation of Citizens' Hall in the late 1990s. She helped to coordinate volunteer labor in that project, and is largely responsible for the first-floor plan of that building. Although she was not a member of the Meetinghouse Committee, we will all miss her.

Scott Roper

Driveway Permits:	\$25
--------------------------	------

Report of the Planning Board

"I went to bed early that night but didn't go to sleep. When I went to turn off my flashlight, the generator went off. My dad said; we have power. I was glad."

RJ Humphreys-Fourth Grade

The Planning Board held (8) public hearings during 2008, which resulted in (2) subdivisions, (1) lot line adjustment, (2) permit renewals and (1) retail business. Those hearings were:

- | | |
|----------|--|
| April | Walter & Jacqueline Buchan; Crooked S Road and Herrick Road; Lot 220-034; two (2) lot subdivision (Major Subdivision); RL I. |
| | Thomas & Virginia Chrisenton; Woodward Drive; Lot 230-005; four (4) lot subdivision (Large Lot); RL II. |
| May | Sandra A. Dion and Curtis L. & Marcelle Simpson; Richardson Road; Lots 215-041 and 215-042; lot line adjustment; RL II. |
| | Laurent & Sharon Boisvert; Feel Good Farm; 52 Johnson Corner Road; Lots 235-013 & 237-014; 1 year permit renewal (paintball/AirSoft activity); RL I. |
| October | Granite State Concrete Co.; Salisbury Road; Lot 213-006; 3 year permit renewal (excavation); RL I. |
| December | Christopher and Nancy Horn; 128 Forest Road; Lot 239-073; small retail business selling Colonial reproductions & locally handcrafted items. produce and baked goods; Village District. |

During 2008, monthly hearings continued with the Wilton Planning Board to discuss the revised 13 lot proposed subdivision on Cram Hill Road (Provost Property) which still has not received final approval.

The Non Residential Business Sign Ordinance and the Flood Plain Ordinance were adopted in March 2008. Renewal of the Growth Management Ordinance will be placed on the ballot in March 2009 as well as two warrant articles addressing Taxation of Farm Structures & Land under Farm Structures and Work Force Housing.

In September, the Planning Board completed their involvement with the ITRaC trails project and all the research material was presented to new leadership with goals to provide a trail network that would include recreational activity, to develop awareness for the town's scenic beauty and to maintain open space and its rural character.

Respectfully submitted,
Pauline Ball, Clerk for the Planning Board

Cemetery Report 2008

"I also liked the way my mom, dad two brothers and I wanted to spend more time together. I really liked that. The best thing was being with my family even if they were scared, worried, mad or bored. Just being with them was the best thing ever."

Karissa Rowell-Sixth Grade

This was a good year for the grass to grow. Ian Howe took on the role of "Lead Man" in the Cemetery/Town crew and they did an excellent job keeping the cemeteries, library, Town Common, Center Hall, and Citizens Hall looking good all summer. Last year we had a new map made for South Cemetery and this year we had Johnson Corner Cemetery done. We plan to continue with another cemetery each year until all the maps have been updated, stored, and managed in computer software. The town appropriation has grown to a level where we can comfortably keep up with the maintenance and continue to make slow and steady improvements without overdrawing from the cemetery trust fund interest. Lyndeborough can be proud of its continued care and improvement of the cemeteries.

James Button,

For the Trustees: Robert Rogers, Ginny Chrisenton & James Button

Report of the Conservation Commission

*"When we got our power back, I learned that you don't need power
to spend time with your family."*

Valeri Kregos-Sixth Grade

The Conservation Commission is responsible for researching and protecting the natural resources of the municipality and providing a focal point for environmental concerns. To accomplish this, part of what we do is review DES permit requests, provide feedback to the Planning Board, and assist landowners in meeting their conservation goals. Conservation funds come from receiving a portion of the penalty paid by developers taking land out of the Current Use program.

In 2008 the Conservation Commission worked closely with the Souhegan Valley Land Trust to support the effort to purchase and forever conserve the Lower Purgatory Falls lot. SVLT coordinated the fundraising and purchase of this unique property and ultimately sold it to the town for a small fraction of its market value. If you have ever been to the Lower Falls you know what a special place it is and how fortunate we are to have permanently protected it. On behalf of the town, I would like to express our thanks to the SVLT for all of their hard work in completing this worthwhile project.

Another milestone accomplished this year was the creation of a Natural Resource Inventory for the town. Data was collected and compiled over a full year and culminated in the acceptance of the NRI report and more than 40 individual GIS data layers from our contractor Joe Trudeau of Preserve Land Works. This data will be used as the initial foundation of electronic mapping information and marks a transition point for our town.

If you are interested in protecting your property for future generations, we are here to help. There are significant tax advantages available right now for those who do. Please feel free to contact us for more information.

The conservation commission meets on the second Thursday of each month at Citizen's Hall at 7:30pm. If you have a conservation ethic and are interested in helping, please consider joining us, we have openings now.

Respectfully submitted,
Mike Decubellis, Chair
On behalf of its members,
Sharon Akers, Pauline Ball, Bob Nields, Andy Roeper

Zoning Board of Adjustment

"I wonder how pioneers could read at night with those little candles and fires."

Annabelle Koutroubas-Second grade

The Zoning Board of Adjustment hears and decides appeals if it is alleged there is an error in any order, requirement, decision, or determination made by an administrative official in the enforcement of any zoning ordinance adopted according to NH RSAs by the Town. It also may authorize, upon appeal, in specific cases such variance from the terms of zoning ordinance as will not be contrary to the public interest, if owing to special conditions, a literal enforcement of the provisions of the ordinance will result in unnecessary hardship, and so that the spirit of the ordinance shall be observed and substantial justice done. The Board also grants special exceptions as outlined in the Town of Lyndeborough Zoning Ordinance. (Paraphrased from NH RSA 674:33)

The ZBA heard six cases during 2008.

2008-01 Paul and Molly Falco, 214 Tarn Rd, Map/Lot 222-003-000

Requested an area variance from the literal provisions of the Lyndeborough Zoning Ordinance Section 702:03 in order to build an addition to their home 25-feet from the side property line. Area Variance Granted.

2008-02 John F. and Joanne M. Miller, 313 Cemetery Rd, Map/Lot 233-003-000

Requested an area variance from the literal provisions of the Lyndeborough Zoning Ordinance Section 702:03 in order to build a detached Garage within 30 feet of the setback from the road. Area Variance Granted.

2008-03 Billy and Kimberly Ponder on behalf of Ronald E. and Barbara Williams, 26 Williams Way, Map/Lot 214-011-000

Requested an area variance from the literal provisions of the Lyndeborough Zoning Ordinance Section 702:03 in order to replace an existing mobile home with a 3-bedroom home within the required setback of the boundary line. Application Withdrawn.

2008-04 David A. and Sue Ann Carita, 18 Curtis Brook Rd, Map/Lot 233-015-000

Requested an area variance from the literal provisions of the Lyndeborough Zoning Ordinance Section 702:03 in order to build a 24x32 garage/barn within 50 foot setback from the road. Application Withdrawn.

2008-05 Richard M. Ansaldo, 659 Center Rd, Map/Lot 237-008-000

Requested a Special Exception as provided in the Lyndeborough Zoning Ordinance Section 703:00 in order to build a 620 square foot in-law apartment. Special Exception Granted.

2008-06 Woodmont Orchards, Center Rd, Map/Lot 247-022-001

Requested an area variance from the literal provisions of the Lyndeborough Zoning Ordinance Sections 408.0 and 702.01 in order to create a lot in the RL1 Zone that is less than five acres and does not have two acres on contiguous slight/moderate soils and has less than 500 feet of road frontage. Area Variance Denied.

Respectfully Submitted,
David M Roemer, Chairman

J.A Tarbell Library Annual Report

"I woke up one morning and there was no power. I looked out the window and saw a huge tree on one of the cars in the driveway that had fallen down. I screamed so loud it woke up the next door neighbors and the ones up the road."

Mikayla Brown-Fourth Grade

In 2008 about 2300 people visited the library, 5000 items circulated. We borrowed 144 items from other libraries and loaned 290 items to other libraries.

We have many DVD's, Videos, Audios, Best sellers, Downloadable audios, and many other items for townspeople to check out.

We wish to thank all the townspeople, especially the Wilton-Lyndeborough Women's Club for all their support throughout the year.

The library is available for small groups to have meetings, just call if you would like to reserve a time.

We have a preschool story hour each Wednesday at 11:00 a.m. We also have a Summer Reading program in the month of July, this year's theme is summertime and the reading is easy.

The library will be closed on Saturdays until April 4, we will resume hours at that time from 9-12 noon.

Respectfully Submitted
Brenda Cassidy, Librarian

Report of the J. A. Tarbell Library Trustees

"I drew a lot of pictures and listened to the radio."

Karac St. Laurent-Third Grade

In 2008, the Trustees held two fund-raising events: a silent auction during the town's community weekend in August and the sale of Christmas wreaths in November. The proceeds were added to the library's building fund.

We still hope to put the library addition out to bid in 2009, though the present economic climate has limited donations and pledges. Two years ago, the voters granted permission to expend the library addition trust fund, and this year we will ask to be able to use the accrued interest in that account.

The Trustees appreciate the continued support from the residents of the town, and we hope to see more of you use our modest facility. We have far more to offer than books.

Report of the Welfare Director

"We the people of Lyndeborough had a very bad ice storm in December of 2008. My family helped a man by giving him some wood. He was very nice and offered to give us the wood back as soon as he could get some."

Kassandra Cavarretta-Fifth Grade

As stated in the state statute, RSA 165:1 below, the Town of Lyndeborough, along with all the other municipalities has the responsibility to assure that basic needs of people in town are met. These basic needs include shelter, food, utilities, prescriptions and expenses necessary for seeking and maintaining full employment.

Welfare expenses in 2008 were higher than in 2007 due to the weak economy. 12 clients received assistance during the year. The table below details the type of assistance rendered.

<u>Payment</u> <u>Category:</u>	<u>Rent</u>	<u>Mortgage</u>	<u>Electric</u>	<u>Heating</u> <u>Oil</u>	<u>Pre-</u> <u>scriptions</u>	<u>Work</u> <u>Related</u>	<u>Other</u>	<u>TOTAL</u>
Amount:	\$14,996	6,893	1,105	1,724	1,471	1,851	107	28,147
%	53.3%	24.5%	3.9%	6.1%	5.2%	6.6%	0.4%	100.0%

Each application is reviewed with the Welfare Guidelines being applied to determine eligibility.

The guidelines are strictly followed assuring that the statutory requirements are met while protecting the Town. All information is verified and payments always go directly to a vendor, not the client. Whenever possible, the welfare office will refer applicants to local organizations and state agencies for assistance and services such as fuel assistance and food stamps in order to reduce the town's costs. If a welfare client owns property, a lien is placed on the property to assure that the Town is repaid.

Respectfully Submitted,
Jim Bingham, Welfare Director

RSA 165:1

"Whenever a person in any town is poor and unable to support himself, he shall be relieved and maintained by the overseers of public welfare of such town, whether or not he has a residence there."

Report of the Heritage Commission

"I felt like I was in the olden days and we were all like a little colony and were helping each other out. It felt good to be self sufficient".

Dalton Courtemarche-Fifth Grade

The Heritage Commission met regularly during the year. They continue to offer signs for historic houses, with proceeds going to other projects, possibly "Welcome to Lyndeborough" signs for Route 31 and Center Road.

The Commission began collecting information to update and enlarge an earlier map of man-made structures in the town: cellar holes, mill foundations, monuments, and significant stone walls and other structures. When completed, the map will be available for the Planning Board in their subdivision reviews. The Commission met on several mornings for a "map session," plotting information on a working map.

Commission members have also begun collecting "stories," memories of older residents, traditions, and changes throughout the town. Much of this information is to be placed on a "story map," showing for instance, just where the so-called "Wildman" was seen in North Lyndeborough, locations of the old blueberry camps, portable sawmills and such.

A grant for the preservation of the town's vital records was looked into.

Members assisted in the clearing out of the Town Hall's upstairs dining room, packing those items that should be preserved and disposing of a lot of junk. They also took part in the Historical Society's region-wide open house program.

The Commission has asked for a warrant article establishing a non-lapsing account in which donations and sign proceeds can be deposited, as well as a line in the town budget. The Commission receives no town funding.

Jessie Salisbury, Secretary/Treasurer

Lyndeborough volunteers by Nadine Preftakes

Wilton-Lyndeborough Youth Center

"I got to play with my cat, Buffy and my rabbit, Fluffy that I got for Christmas.

I got to go out for breakfast at the Yankee Chef!"

Mackenzie Hayden-First Grade

The year 2008 was another great summer, filled with many new members, fun and games, new staff and improvements to the park. We would like to thank the towns of Wilton and Lyndeborough, private donors and the area businesses for their generous support. We would also like to thank all of the individuals who donated their time to help improve the park and make it more enjoyable.

This year the Youth Center was able to paint the craft building, ramps and pavilion and seal/paint the pier walls. We were also able to replace the roof and paint the pump house and install outside lighting for our night activities.

Our membership this year was 117 families who enjoyed the Youth Center from Wilton, Lyndeborough and 5 surrounding towns. We also had many daily guests who enjoyed the park facilities. The park had five Red Cross Certified swim instructors who taught 146 lessons. Twenty-two children participated on our swim team in 2008 competing with other local towns. Congratulations to the Senior and Junior swim teams for a great year.

The park was open from 10:00 am to 7:00 p.m. during the week and 1:00 pm to 7:00 pm on the weekends. Our snack bar has been expanded and offers a variety of ice cream, chips, candy, soda, etc. The members participated in arts and crafts, field and water games, swimming lessons, and swim meets with area towns. The Youth Center held special events such as family night, grill day, pizza day, story time, face painting, tie-dye, police bike and safety talk, splash contest, sand castle contests, and use of Goss Park for company and organization outings.

Plan on coming to our Open House at the beginning of the season to meet or greet staff and tour the facilities. Information may be obtained at the town halls.

Respectfully Submitted,
WLYC Board of Directors

"Mock Election" at LCS by Kathleen Humphreys

Annual Report of NRPC Activities for the Town of Lyndeborough

Land Use and Environment

- ❖ Conducted the Lyndeborough Trails Project – Through the course of 2008, NRPC worked with a committee of town volunteers to conduct the Lyndeborough Trails Project. The purpose of this project was to identify methods for developing a network of equestrian and multi-use trails within the town that would provide an alternative transportation system within the community. NRPC staff worked with town volunteers to identify existing and potential trails and to research policies that will lead to the creation of the town-wide trail network. This project was conducted free of charge through the NRPC iTRaC program and is a model of transportation – land use coordination in the state.
- ❖ Lyndeborough Master Plan Consultation – At the request of the Planning Board and Board of Selectmen, NRPC reviewed the Lyndeborough Master Plan. Based on that review NRPC staff met with a committee of representatives from the town and provide input on inexpensive methods that town volunteers could use to assure compliance of the Master Plan with all requirements. NRPC staff also suggest approaches that could be used to set town funds aside for the next five years for an anticipated major Master Plan update early in the next decade.
- ❖ NRPC Energy Program – This year, NRPC began a multi-year project to provide support to local energy committees. The NRPC will assist these committees in conducting an inventory of the energy use of town facilities and buildings. The NRPC will then assist the town in identifying steps that can save energy at each facility and develop a road map of the steps the energy committee should be taking to achieve energy and cost savings at town facilities and buildings. This project will extend through 2009.
- ❖ Legislative Services – On an annual basis, NRPC is actively engaged with members of the Legislature on issues that concern member communities. During the 2008 session NRPC was actively engaged legislative issues related to land use law, workforce housing, transportation funding, and commuter rail.
- ❖ Workforce Housing – During 2008 NRPC updated the Regional Housing Needs Assessment. This document is a planning tool for the Lyndeborough Planning Board that identifies the amount of housing that will be needed in the community by 2015. The town Planning Board can use the Regional Housing Needs Assessment to determine if it is planning for an adequate supply of housing for all income groups in the community. NRPC also provided tools that the town can use in updating its housing policies including assessment tools and model ordinances.
- ❖ Innovative Land Use Planning Guidelines – NRPC working with the other NH regional planning commissions and NH Department of Environmental Services completed development the Innovative Land Use Planning Guidelines. This document provides background research, case studies and model ordinances for the application of innovative land use techniques in New Hampshire communities.
- ❖ Brownfields - NRPC continued its regional brownfield assessment process. This process is identifying brownfields throughout the region that qualify for federal and state funding programs. NRPC staff worked with local officials to identify qualifying brownfields in each

of the member communities. Staff then directed NRPC's consultant in preparing Phase I and Phase II brownfields assessments for each of the sites. NRPC staff also worked with town staff members and affected property owners to provide education on the brownfield process and on potential funding sources for cleanup activities. This year NRPC completed an assessment of petroleum related brownfields and began assessing brownfields related to all other pollutants.

- ❖ **Resources and Training** – Through the innovative iTRaC (Integrating Transportation and Community Planning) program the NRPC provided a wide array of resources to town volunteers and staff. Resource cards and information sheets were developed on road standards, wildlife habitat, steep slopes, inclusionary zoning, landscaping and streetscaping, and scenic roads and byways. Training workshops were conducted on habitat protection planning, an update on NH legal issues for land use and the environment, on shoreland protection, on Planning Board basics, and on integrating landscaping and streetscaping.
- ❖ **iTRaC E-News** – NRPC also launched the iTRaC E-News which provides bi-monthly updates on projects, training and resources available through the NRPC iTRaC program.

Transportation

NRPC as the designated Metropolitan Planning Organization (MPO) for the region is responsible for developing and maintaining the region's transportation planning program. This includes soliciting, prioritizing and making recommendations on regional and local transportation projects that are funded through Federal or State sources. NRPC is responsible for developing the region's portion of the State's Transportation Improvement Program (STIP), maintaining the regional traffic model, and performing required air quality analyses. In addition, NRPC MPO funds are used to provide municipal technical assistance on transportation issues.

- ❖ **Support for Non-emergency Medical Transportation Project** – Throughout 2008 NRPC transportation staff has met with and advised representatives from Souhegan Valley communities on the initiation of the Non-emergency Medical Transportation Project. This project, partial funded by the town and various grant sources provides rides to those who need help getting to and from medical appointments. Service began mid-year and NRPC staff is now working with project volunteers to access federal funds to increase the amount of service that is provided.
- ❖ **Traffic Data Collection** - Conducted 6 traffic counts in Lyndeborough in the past year. These traffic counts are available for use by the Town and NRPC can conduct special counts upon request. The count data is available to anyone through the NRPC website and more detailed data from each count is available upon request.
- ❖ **Lowell-Nashua Commuter Rail** – During the course of 2008 NRPC continued to push forward the Lowell-Nashua Commuter Rail project. Activities this year included the formation of the New Hampshire Rail Transit Authority, the operating entity for the rail project, as well as passage of a limitation on liability as well as the preparation of conceptual development and operating costs. The liability limitation will be a critical factor in controlling operating cost for the rail project.
- ❖ **Human Service Transit Coordination** – For several years the Department of Transportation and Department of Health and Human Services have been developing a process for coordinating transit services funded by the two agencies to reduce costs and increase service.

The NRPC has been the leader in the state in this process and was recognized as the first regional coordinating group in October 2008. In the coming year it is anticipated that this project will lead to increased transit service throughout the NRPC region and help meet the transportation needs of many seniors and disabled adults without transportation options.

- ❖ Road Inventory – During 2008, NRPC staff prepared the updated the data in the town Road Inventory. This data set allows officials from the Town and NH DOT to have the most up to date information on Lyndeborough's roads and will be used for planning road improvements in the community.
- ❖ Transportation Emergency Preparedness Plan – During fall 2008 NRPC began a project to identify the impacts of emergencies on the region's transportation system and identify methods to prepare for and mitigate the impact of those emergencies. Members of the town staff including police, fire and planning are participating in this effort.
- ❖ Environmental Planning for Transportation Projects – Also during the fall of 2008, NRPC began a project that will assess the environmental impacts of all transportation projects that are planned for the Souhegan Valley watershed and identify approaches to coordinating the mitigation process to achieve the greatest environmental benefit. Members of the town conservation commission and non-profit groups located in the community are actively participating in the development of this project.
- ❖ Regional Traffic Model – NRPC is updating the regional traffic model to provide morning and afternoon peak hour traffic forecasts. This will allow NRPC to provide more specific information to the town when assessing the impact of traffic from new development. This capability is available for town use whenever there is interest, without cost, and the town staff has utilized NRPC traffic expertise on several occasions during 2008 to help study critical intersections and development issues.
- ❖ Long Range Transportation Plan – During 2008, NRPC completely updated the region's Long Range Transportation Plan, Transportation Improvement Program and Air Quality Conformity Analysis. These documents identify transportation priorities for the region and each of the municipalities and are required to receive funding for transportation improvement projects.

Geographic Information Systems (GIS)

The GIS staff at NRPC continues to maintain a diverse collection of spatial databases including local roads, real property parcels, zoning, land use, and environmental conditions. This data is applied extensively to provide mapping and analysis for local and/or regional projects.

- ❖ Updated NRPC Standard Map Library for Lyndeborough. These four standard maps show the Town's Roads and Town Facilities, Environmental and Conservation Areas, Existing Land Use and an Aerial Image of the Town. Two sets of these maps have been provided to the Town.
- ❖ This year NRPC worked with the town assessor and the Registry of Deed database to update the town digital parcel map to include all changes to property data. This item is a critical component of many projects conducted in the town and is always available to the town from NRPC free of charge.

- ❖ Provided town volunteers with all the existing GIS data on CD for use on Town projects. This data has been developed and maintained by NRPC and would have cost many thousands of dollars for the Town to develop on its own.
- ❖ Completed regular maintenance tasks and performed updates to the Lyndeborough GIS data which is maintained by NRPC, including digitizing new roads, parcels, protected lands, zoning changes, trails, social service or child care providers, land use and other baseline data.
- ❖ Mapped and analyzed trends relative to real estate transactions for the year to maintain a tool for monitoring sales trends.
- ❖ Addressed numerous mapping requests from the Town officials and the public.
- ❖ Continued to update and expand the regional annotation layers for improved clarity, accuracy and detail in mapping tasks.

2008 Health Officer Report

"A stick went through my roof but my cousin let me borrow his toys.

I stayed with my Nana."

Jaden LeMay-First Grade

By design the local health officer (HO) works to assure and protect the health and safety of the public through interaction and coordination with state, regional and local public health authorities, laws, regulations, ordinances and systems. Examples of the roles and responsibilities of the local health officer include: communicable diseases, emergency response, public education, nuisances, septic systems, rental housing, health facilities, childcare/foster homes, food-borne illnesses, mosquito borne illnesses, rabies, lead, drinking water, public swimming places, and smoking.

Education and training for the HO position is usually organized by the New Hampshire Department of Health and Human Services (NH DHHS) and/or one of its affiliated organizations. This HO attends a minimum of four educational and training sessions per year.

Lyndeborough belongs and participates in the *Greater Nashua All Health Hazards Region (#16) Regional Coordinating Committee on PH Emergency Preparedness (GNRCC)*. As HO and member of the Local Emergency Preparedness Committee (LEPC) this HO attends and represents the Town at the monthly meetings. The HO participates at the Lyndeborough Emergency Operations Center as needed such as during the December ice storm.

To fulfill the role of public education this HO composes an article for the quarterly news letter, the Lyndeborough Views, providing health and safety information. In addition links to health and safety information are maintained on the Town website.

To promote the public's health, a blood pressure (BP) clinic is held monthly at Citizens' Hall in coordination with Home Health, Hospice and Community Services of Keene (HCS). In the fall, usually in place of the October BP clinic, an influenza vaccine clinic is held for adults. Flu vaccine is usually available at the November and December BP clinics for those who missed the October clinic.

Other roles of the HO are random and are usually by request of a concerned citizen or to answer a request by a licensing board to inspect a local school or home in regard to childcare or foster care. As a resource; this HO welcomes inquires regarding public health and safety concerns, and can be reached through the Town Office.

Dear Board Members,

We would appreciate your consideration of our request for support of the seniors of Lyndeborough. It is our goal to promote and prolong wellness for them through the Community Dining and Home Delivered Meals Program.

Over the past year we have served 4 people residing in the Town of Lyndeborough. Of these, 1 is under our Title XX program and sponsored by the County of Hillsborough. We struggle to hold our costs down, and since 1992 have held the line at \$65.00 per client.

Unduplicated Clients	4
County Sponsored	- 1
Seniors	3
	<u>x \$65</u>
	\$195

For many of our homebound participants, our driver may be the only person he or she will see that day. Therefore, the daily safety check that we perform is as important as the meal we provide. Support from the towns helps us to keep your elderly safe in their homes.

Enclosed is our FY'2008 annual report.

Sincerely,

Meghan Brady
President

--	--------------

In addition to the above discounts, Current outstanding and uncollectible Resident balances:	\$7,451.06
--	------------

Home Healthcare, Hospice & Community Services

Report to the Town of

LYNDEBOROUGH

2008

Annual Report

In 2008, Home Healthcare, Hospice and Community Services (HCS) continued to provide home care and community services to the residents of Lyndeborough. The following information represents HCS's activities in Lyndeborough during the past twelve months.

Service Report

Services Offered

Services Provided

Nursing	73 Visits
Physical Therapy	23 Visits
Occupational Therapy	1 Visit
Medical Social Work.....	6 Visits
Home Health Aide	13 Visits
Chronic Care.....	20 Hours
Health Promotion Clinics	12 Clinics

Total Unduplicated Residents Served with Home Care Services: 20

Prenatal and well child care, hospice services and regularly scheduled "Nurse Is In" clinics are also available to residents. Town funding partially supports these services.

Financial Report

The actual cost of all services provided in 2008 with all funding sources is projected to be \$20,013.00.

These services have been supported to the greatest extent possible by Medicare, Medicaid, other insurances, grants and patient fees. Services that were not covered by other funding have been supported by your town.

For 2009, we request an appropriation of \$500.00 to continue to be available for home care services in Lyndeborough.

Thank you for your consideration.

LEPC Staff at work during the December Ice Storm by Nadine Preftakes

**Town of Lyndeborough NH
2008 Town Meeting Minutes Summary
March 15, 2008**

Meeting was called to order at 10:10am by Moderator Walter Holland on Saturday, March 15, 2008 at Citizens Hall in Lyndeborough New Hampshire.

TOWN WARRANT LYNDEBOROUGH, NEW HAMPSHIRE

To the Inhabitants of the Town of Lyndeborough, in the County of Hillsborough in said state qualified to vote in Town affairs; You are hereby notified to meet at Center Hall, 1131 Center Road in said Lyndeborough on Tuesday, the eleventh (11th) day of March 2008 at eight of the clock in the forenoon until seven of the clock in the evening, for ballot Voting of Town Officers and all other matters requiring ballot vote; and, to meet at Citizens' Hall, 9 Citizens' Hall Road in said Lyndeborough, on Saturday, the fifteenth (15th) day of March 2008 at ten of the clock in the morning, to act upon Articles 4 through 17:

1. To choose all necessary Town officers for the year ensuing.

RESULTS: *-Indicates elected

Selectman (3 years)	*Steve M. Brown- 236 Paul A. Martin Jr.- 133
---------------------	--

Moderator (2 years)	*Walter Holland- 362
---------------------	-----------------------------

Supervisor of the Checklist (6 years)	*Edna Worcester- 343
---------------------------------------	-----------------------------

Budget Committee (3 years)	*Karen Grybko- 295 *William J. Ball- 282 *Kevin Boette- 277
----------------------------	--

Budget Committee (2 year)	*Arnold Byam III- 335
---------------------------	------------------------------

Library Trustees (3 years)	*Ann Harkleroad- 344
----------------------------	-----------------------------

Cemetery Trustee (3 years)	*Virginia Chrisenton- 284 Sharon Boisvert- 84
----------------------------	---

Trustee of Trust Funds (3 years)	*Steven Brooks- 164 Richard Herfurth- 137 Barbara Boisvert- 61
----------------------------------	---

Zoning Board of Adjustment (3 years)	*Thomas Chrisenton- 260 *Steven Brooks- 237 Laurent Boisvert II - 75
--------------------------------------	--

All those elected were sworn in as the last order of business of the day.

Article 2. Are you in favor of the adoption of Amendment Number 1 as proposed by the Planning Board for the town zoning ordinance as follows: amend the floodplain ordinance as necessary to comply with requirements of the National Flood Insurance Program? A complete copy of this proposed ordinance is available at the Town Clerk's office and is posted at Citizens' Hall and at the Lyndeborough Post Office. (Majority vote required).

RESULTS: *YES: 181 NO: 67 Article Passes

Article 3. Are you in favor of the adoption of the Non-residential Business Sign Zoning Ordinance as proposed by the Planning Board? (This ordinance is recommended by the Planning Board and will require reasonable uniformity in the size, treatment and presentations of signs used to call attention to the existence of a business activity, product or service). A complete copy of this proposed ordinance is available at the Town Clerk's office and is posted at Citizens' Hall and at the Lyndeborough Post Office. (Majority vote required).

RESULTS: *YES: 230 NO: 125 Article Passes

Article 4. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of one million four hundred twenty-nine thousand five hundred forty dollars (\$1,429,540), representing the operating budget for fiscal year 2008 as prepared by the Budget Committee. Said sum is exclusive of all special or individual articles addressed; or take any other action relating thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required).

Motion made by Steve Brown and seconded by Lorraine Strube to accept article as written. Burton Reynolds spoke on the budget and gave a brief overview. On a voice vote the **Article Passed**

Article 5. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of fifteen thousand dollars (\$15,000) to be added to the Replacement of the 1984 Tanker Capital Reserve Fund previously established; or take any action relating thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required).

Motion made by Andy Roeper and seconded by Steve Brown to accept article as written. On a voice vote **Article Passed**.

Article 6. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of seventeen thousand dollars (\$17,000) to be added to the Replacement of the 1994 Fire Department Pumper Capital Reserve Fund previously established; or take any other action relating thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required).

Motion made by Lorraine Strube and seconded by Andy Roeper to accept article as written. On a voice vote **Article Passed**.

Article 7. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of thirteen thousand dollars (\$13,000) to be added to the Replacement of the 2002 Rescue Vehicle Capital Reserve Fund previously established; or take any other action relating

thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required).

Motion made by Steve Brown and seconded by Lorraine Strube to accept article as written. On a voice vote **Article Passed.**

Article 8. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of eleven thousand dollars (\$11,000) to be added to the Replacement of Police Vehicles Capital Reserve Fund previously established; or take any other action relating thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required).

Motion made by Steve Brown and seconded by Andy Roeper to accept article as written. On a voice vote **Article Passed.**

Article 9. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of one hundred thirty-five thousand dollars (\$135,000) to purchase a new dump truck and authorize the withdrawal of one hundred twenty-six thousand dollars (\$126,000) from the Replacement of the 1989 Mack Dump Truck Capital Reserve Fund created for that purpose. The balance of nine thousand dollars (\$9,000) is to come from general taxation. And, to discontinue the Replacement of the 1989 Mack Dump Truck Capital Reserve Fund with any remaining balance being returned to the General Fund; or take any other action relating thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required).

Motion made by Andy Roeper and seconded by Lorraine Strube to accept article as written. Motion made and seconded to get rid of the truck being replaced. Voice vote on amendment to sell the 1989 Mack truck does not pass. On a voice vote **Article Passed.**

Article 10. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of twenty thousand dollars (\$20,000) to be added to the Replacement of the Highway one-ton Capital Reserve Fund previously established; or take any other action relating thereto. The Selectmen and Budget Committee support this appropriation. (Majority vote required)

Motion made by Lorraine Strube and seconded by Steve Brown to accept article as written. On a voice vote **Article Passed**

Article 11. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of eighty-one thousand two hundred dollars (\$81,200) to purchase a new backhoe and authorize the withdrawal of eighty-one thousand two hundred dollars (\$81,200) from the Replacement of the 2001 Backhoe/Loader Capital Reserve Fund created for that purpose; or take any other action relating thereto. The Selectmen and Budget Committee support this appropriation. (Majority vote required).

Motion made by Andy Roeper and seconded by Steve Brown to accept article as written. This would be a second backhoe not a replacement for the old backhoe. On a voice vote **Article Passed.**

Article 12. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of nine hundred thirty thousand eight hundred dollars (\$930,800) for the replacement of the Gulf Road bridge and to authorize the withdrawal of one hundred forty-six thousand dollars (\$146,000) from the Gulf Road Bridge Replacement Capital Reserve Fund created for that purpose. Seven hundred forty-four thousand eight hundred dollars (\$744,800), (80% of the cost of this project) is to come from The State of New Hampshire Bridge Aid Program and the

balance of forty thousand dollars (\$40,000) is to come from general taxation. This will be a non-lapsing appropriation per RSA 32:7, VI and will not lapse until the bridge is completed or by December 31, 2010, whichever is sooner; or take any other action relating thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required). Motion made by Steve Brown and seconded by Lorraine Strube to accept article as written. On a voice vote **Article Passed.**

Article 13. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of three thousand dollars (\$3,000) to be added to the Replacement of the 1997 Ambulance Capital Reserve Fund previously established; or take any other action relating thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required). Motion made by Lorraine Strube and seconded by Steve Brown to accept article as written. On a voice vote **Article Passed.**

Article 14. To see if the Town of Lyndeborough will vote to raise and appropriate the sum of seventy thousand dollars (\$70,000) to rehabilitate sections of Mountain Road; or take any other action relating thereto. The Selectmen and Budget Committee recommend this appropriation. (Majority vote required). Motion made by Andy Roeper and seconded by Steve Brown to accept article as written. On a voice vote **Article Passed.**

Article 15. To see if the Town of Lyndeborough will vote to approve the following resolution to be forwarded to our State Representatives, our State Senator and our Governor: Resolved: We the citizens of Lyndeborough, NH believe in a New Hampshire that is just and fair. The property tax has become unjust and unfair. State leaders who take a pledge for no new taxes perpetuate higher and higher property taxes. We call on our State Representatives, our State Senator and our Governor to reject the "Pledge," have an open discussion covering all options, and adopt a revenue system that lowers property taxes. (By Petition) (Majority vote required).

Motion made by Andy Roeper and seconded by Lorraine Strube to accept article as written. Marge Hallyburton moved to Table, Seconded by audience member. The Moderator stated that it takes a two thirds majority to table this without discussion, without a vote on it, at this time we have a motion and a second, I would like to take a show of hands, those in favor of laying this Article on the table, signify by raising your hand at this time. Raise your yellow cards please. All those who do not wish to table this and would like to continue the discussion on this Article, please raise your cards at this time. Results of vote, Yes is 36, No is 17. Needed 35 to pass, so question is tabled for another time. **Article 15 is tabled.**

Article 16. To see if the Town of Lyndeborough will vote to authorize the Selectmen to accept the reports of auditors and committees as printed in the Town Report; or take any other action relating thereto. (Majority vote required).

Motion made by Lorraine Strube and seconded by Steve Brown to accept article as written. On a voice vote **Article Passed.**

Article 17. To transact any other business that may legally come before said meeting.

Moderator: I would like to hear about the Police Study Committee.

Burton Reynolds: The Police Study Committee is made up of five members, Kevin Boette, Phil Brooks, Sean Magoon, Paul Martin and myself. The Selectmen presented us with a charge, I will

March 15, 2008

read the purpose, to serve as an advisory committee to the Board of Selectmen, to review the organizational needs of the Police Department and recommend a structure that will best facilitate the department meeting the needs of the Town. Time frame, a preliminary report should be presented to the Board of Selectmen no later than March 3rd 2008 so the Board may report to the 2008 Town Meeting, final report should be submitted to the Board of Selectmen no later than June 17th 2008. We didn't submit a report to the Selectmen but we are here today to report. Structure of the Committee, the Committee shall elect a chair and keep minutes, which we have done, I am the chair. The report should include but not necessarily be limited to, evaluate the organizational needs of the Police Department, evaluate possible organizational structures to meet the needs, evaluate the possible combination of the Police Department with other Towns, compare estimated costs of variable plans, recommend possible solutions. The Committee has developed a Mission Statement and this is it: The Police Study Committee was formed by the Selectmen because of a request from a citizen at the Special Town Meeting on 29 December 2007. The Selectmen have asked that the Police Study Committee evaluate different configurations and costs for the Lyndeborough Police Department. The Police Study Committee is looking to the future and what the Town wants and needs. The Police Study Committee will be soliciting information from the public during voting on Tuesday, March 11th and Town Meeting, Saturday, March 15th and another date to be determined. Once the Police Study Committee gathers the data and completes it's report, they will present it to the Selectmen. The Selectmen will take this report along with the report from Municipal Resources who is looking at this from a law enforcement angle and make a decision based on what the Town can afford and what the Citizens of Lyndeborough want from their Police Department. The initial focus of the Committee was to develop a questionnaire, green questionnaire is down front here at the table, if you haven't picked one up please do so, we desperately want to have your input and your opinions. So the first focus of the Committee was to design and determine what these questions would be. We see ourselves as listing a range of possible options and providing the pros and cons to those and we are going to do so by obtaining input from you, the public, and meeting with a wide range of officials in and out of policing to get their ideas and recommendations. In other words, we are going to be the research team. You and your elected officials, the Board of Selectmen will take our report and then determine from the choices we have listed what you think the best options are to move forward. So that is our update.

Ann Harkleroad asked what is the current status of the Police Department? Steve Brown stated that we have two full-time and a number of part-time officers that are providing coverage to the Town. We have initiated a search for an Administrator to provide administrative oversight to the Department. We have not made any decision with respect to that yet. Obviously we want to have something in place, at the same time this is not something that we want to rush into, so we are taking measured steps as we move along. It is our expectation or hope, that by the time we get the report from the Police Study Committee that we will have the report from MRI, we will have some dialogue from the Town at which point we will put in what I will call the permanent structure and in the meantime we are operating. I will say from an Administrative capacity we have an Officer in Charge right now. There is some, there will probably be some time that will elapse between now and when we will have quote unquote, now we are calling it the interim interim, but when we have the individual that will carry us from say now until when the decision is made as to what the permanent structure is going to be. So that is probably going to be, I am guessing, three, four, five months, maybe a bit longer. We have one of the Officers right now doing some of that Administrative duty, that may or may not change in the near future, unknown, we are still taking a look at what our options are for getting Administrators in until such time as the Town makes a decision on how we want to run this in a more permanent fashion. Question asked as to status of

Town of Lyndeborough- Town Meeting Minutes

March 15, 2008

Mutual Aid from surrounding Towns. Steve Brown replied that we have Mutual Aid from all but Milford.

Mike Kaelin asked to bring forward a motion to bring Article 15 back from the Table for a serious debate; it was seconded by Bill Ball. The Yes Vote in favor of removing it from the table was 21; the No Vote to leave it on the table was 38; it is not removed from the Table.

Ellen Pomer spoke about the Kitchen renovation at the Town Hall and asked when the windows will be done. Andy Roeper said they should be done within 4 weeks.

The Moderator asked all newly elected Officers to please come forward to be sworn in. A Motion and second was made to Adjourn the meeting. Meeting adjourned at 12:31pm

Respectfully Submitted,

Patricia H. Schultz

Town Clerk/Tax Collector

INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Selectmen
Town of Lyndeborough
Lyndeborough, New Hampshire

We have audited the accompanying financial statements of the Town of Lyndeborough as of and for the fiscal year ended December 31, 2007 as shown on pages 2 through 6. These financial statements are the responsibility of the Town of Lyndeborough's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

Management has not implemented Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. Therefore these financial statements are presented following the principles that were in effect prior to GASB Statement No. 34. Management has not presented government-wide financial statements to display the financial position and changes in financial position of its governmental activities and business-type activities. The financial statements presented do not contain separate statements for governmental and fiduciary fund types, nor are major and nonmajor funds separately identified and classified. The financial statements presented report expendable and nonexpendable trust funds, some of which should be reported as special revenue and permanent funds under the new reporting model. Also, the financial statements do not contain any information on capital assets because the government has not maintained historical cost records of such assets. Management has not presented a management's discussion and analysis as required. The amounts that would be reported in the missing statements and required supplementary information, and the effects of reclassifying and properly reporting the information presented are not reasonably determined.

In our opinion, because of the effects of the matters discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the Town of Lyndeborough as of December 31, 2007, or the changes in its financial position or its cash flows, where applicable, for the year then ended.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Lyndeborough's basic financial statements. The combining and individual fund schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. For reasons stated in the third paragraph of this report, we expressed an opinion that the financial statements of the Town of Lyndeborough do not fairly present financial position, results of operations, and cash flows in conformity with accounting principles generally accepted in the United States of America. Therefore, we do not express an opinion on the accompanying combining and individual fund schedules.

TOWN OF LYNDEBOROUGH, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
DECEMBER 31, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The more significant of the government's accounting policies are described below.

1-A Reporting Entity

The Town of Lyndeborough, New Hampshire (the Town), incorporated in 1759, is a municipal corporation governed by an elected 3-member Board of Selectmen. The reporting entity is comprised of the primary government and any other organizations that are included to ensure that the financial statements are not misleading.

Component units are legally separate organizations for which the Town is financially accountable. The Town is financially accountable for an organization if the Town appoints a voting majority of the organization's governing board and (1) the Town is able to significantly influence the programs or services performed or provided by the organization; or (2) the Town is legally entitled to or can otherwise access the organization's resources; the Town is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the Town is obligated for the debt of the organization. Based on the foregoing criteria, no other organizations are included in the Town's financial reporting entity.

1-B Basis of Presentation

The accounts of the Town are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures/expenses, as appropriate. The various funds are grouped by type in the financial statements. The following fund types and account group are used by the Town:

Governmental Fund Types

General Fund - The general fund is the primary operating fund of the Town. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges, and the capital improvement costs that are not paid through other funds.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trust or major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action.

Capital Projects Funds - Transactions related to resources obtained and used for the acquisition, construction, or improvement of capital facilities are accounted for in capital projects funds.

Fiduciary Fund Types

Trust and Agency Funds - These funds account for assets held or established under a formal trust agreement or Town Meeting vote, or assets held by the Town as a trustee or agent for individuals, private organizations, or other units of government.

Account Group

Account groups are not "funds." They are concerned only with the measurement of financial position. They are not involved with the measurement of results of operations. The Town uses the following account group:

General Fixed Assets Account Group - General fixed assets have been acquired for general governmental purposes and have been recorded as expenditures in the applicable fund. The Town does not maintain a record of its general fixed assets valued at historical cost, and accordingly, a statement of general fixed assets is not included in this financial report.

TOWN OF LYNDEBOROUGH, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
DECEMBER 31, 2007

1-C Measurement Focus/Basis of Accounting

Governmental, expendable trust and agency funds use the modified accrual basis of accounting. Under this method, revenues are recognized in the accounting period in which they become both available and measurable (flow of current financial resources measurement focus). Licenses and permits, fines and forfeits, and most miscellaneous revenues are recorded when received in cash. General taxes, intergovernmental revenues, charges for services, and investment earnings are recorded when earned (when they are measurable and available). Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except expenditures for prepayments, debt service, and other long-term obligations, which are recognized when due.

Nonexpendable trust funds are accounted for using the accrual basis of accounting. Using this basis of accounting, revenues are recognized when they are earned, and expenses are recognized when they are incurred (flow of economic resources measurement focus).

1-D Assets, Liabilities and Fund Equity

1-D-1 Cash, Cash Equivalents and Investments

Cash and Cash Equivalents - Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the Town.

New Hampshire statutes require that the Town treasurer have custody of all moneys belonging to the Town and pay out the same only upon orders of the Board of Selectmen. The treasurer shall deposit all moneys in participation units in the public deposit investment pool established pursuant to N.H. RSA 383:22 or in solvent banks in the state. Funds may be deposited in banks outside the state if such banks pledge or deliver to a third party custodial bank or the Federal Reserve Bank, collateral security for such deposits, United States government or government agency obligations, or obligations of the State of New Hampshire in value at least equal to the amount of the deposit in each case.

Investments - Whenever the treasurer has in custody an excess of funds which are not immediately needed for the purpose of expenditure, the treasurer shall, with the approval of the Board of Selectmen, invest the excess funds. New Hampshire law authorizes the Town to invest in the following types of obligations:

- Obligations of the United States government,
- The public deposit investment pool established pursuant to RSA 383:22,
- Savings bank deposits, or
- Certificates of deposit and repurchase agreements of banks incorporated under the laws of the State of New Hampshire or in banks recognized by the state treasurer.

Any person who directly or indirectly receives any such funds or moneys for deposit or for investment in securities of any kind shall, prior to acceptance of such funds, make available at the time of such deposit or investment an option to have such funds secured by collateral having a value at least equal to the amount of such funds. Such collateral shall be segregated for the exclusive benefit of the Town. Only securities defined by the bank commissioner as provided by rules adopted pursuant to RSA 386:57 shall be eligible to be pledged as collateral.

Investments are stated at fair value as of the balance sheet date which is based on quoted market prices.

1-D-2 Receivables

Tax revenue is recorded when a warrant for collection is committed to the tax collector. Taxes receivable are reported net of an allowance established for any taxes where collection is in doubt.

As prescribed by law, the tax collector executes a lien on properties for all uncollected property taxes in the following year after taxes are due. The lien on these properties has priority over other liens and accrues interest at 18% per annum. If property is not redeemed within the 2-year redemption period, the property is tax deeded to the Town.

Accounts receivable include various service charges which are recorded as revenue for the period when service was provided.

1-D-3 Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables."

TOWN OF LYNDEBOROUGH, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
DECEMBER 31, 2007

1-D-4 Compensated Absences

Employees are entitled to certain compensated absences based on their length of employment. Compensated absences accumulate and are recorded as expenditures when they are paid.

1-D-5 Deferred Revenue

The government reports deferred revenue on its combined balance sheet. Deferred revenue arises when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenue also arises when resources are received by the government before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when revenue recognition criteria are met, or when the government has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

1-D-6 Accrued Liabilities and Long-Term Obligations

All payables and accrued liabilities are reported in the financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of these funds. However, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payment" during the current year.

1-D-7 Fund Equity

Generally, fund balance represents the difference between the current assets and current liabilities. The Town reserves those portions of fund balance that are legally segregated for a specific future use or that do not represent available, spendable resources, and therefore, are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund balance that is available for appropriation in future periods. Designations are management's intent to set aside these resources for specific purposes.

The following reserves are used by the Town:

Reserved for Encumbrances - is used to account for open purchase orders, contracts and other commitments at year-end for which goods and services have not been received.

Reserved for Endowments - represents the principal balance of the Town's nonexpendable trust funds which must be held for investment purposes only.

Reserved for Special Purposes - is used to account for the unencumbered balance of restricted funds. These consist of the uncommitted balances of the capital projects funds, the Town's expendable trust funds, and the income portion of the Town's nonexpendable trust funds.

The following designation is used by the Town:

Designated for Special Purposes - is used to account for the unencumbered balances of special revenue funds.

1-D-8 Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

1-D-9 Memorandum Only - Total Columns

Total columns on the financial statements are captioned as "memorandum only" because they do not represent consolidated financial information and are presented only to facilitate financial analysis. The columns do not present information that reflects financial position, results of operations or cash flows in accordance with U.S. generally accepted accounting principles. Interfund eliminations have not been made in the aggregation of this data.

TOWN OF LYNDEBOROUGH, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
DECEMBER 31, 2007

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

2-A Budgetary Information

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the Town's operations. At its annual meeting, the Town adopts a budget for the current year for the general, cemetery, and public library funds. Project-length financial plans were adopted for the capital projects funds. Except as reconciled in Note 2-B, the budget was adopted on a basis consistent with U.S. generally accepted accounting principles.

Management may transfer appropriations between operating categories as deemed necessary, but expenditures may not legally exceed budgeted appropriations in total. All annual appropriations lapse at year-end unless encumbered.

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year-end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures, and are therefore, reported as part of the fund balance at year-end, and are carried forward to supplement appropriations of the subsequent year.

State statutes require balanced budgets, but provide for the use of beginning unreserved fund balance to achieve that end. In the fiscal year 2007, none of the beginning fund balance was applied for this purpose.

2-B Budgetary Reconciliation

Amounts recorded as budgetary revenues and expenditures in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual - General and Special Revenue Funds (Exhibit C) are presented on the basis budgeted by the Town. The amounts differ from those reported in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Fund Types and Expendable Trust Funds (Exhibit B) as follow:

	General Fund	Special Revenue Funds
Revenues and other financing sources:		
Per Exhibit C (Budgetary basis)	\$ 1,883,551	\$ 53,480
Adjustments:		
Basis difference:		
On-behalf retirement contributions made by the State of New Hampshire recognized as revenue on the GAAP basis, but not on the budgetary basis	5,215	-
Entity difference:		
Unbudgeted funds:		
Police equipment	-	580
Outside detail	-	12,507
Conservation commission	-	10,076
Per Exhibit B	<u>\$ 1,888,766</u>	<u>\$ 76,643</u>
Expenditures and other financing uses:		
Per Exhibit C (Budgetary basis)	\$ 1,773,321	\$ 45,381
Adjustments:		
Basis difference:		
Encumbrances, ending	(97,788)	-
On-behalf retirement contributions made by the State of New Hampshire recognized as an expenditure on the GAAP basis, but not on the budgetary basis	5,215	-
Entity difference:		
Unbudgeted funds:		
Outside detail	-	11,878
Per Exhibit B	<u>\$ 1,680,748</u>	<u>\$ 57,259</u>

TOWN OF LYNDEBOROUGH, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
DECEMBER 31, 2007

2-C Excess of Expenditures Over Appropriations

The following governmental funds had an excess of expenditures over appropriations for the year ended December 31, 2007:

Special revenue funds:	
Cemetery	\$ 3,046
Public library	8,188
Total	<u>\$ 11,234</u>

Overexpenditures were primarily due to the receipt and expenditure of unanticipated funds.

2-D Applicable Reporting Standard

In June 1999, the Governmental Accounting Standards Board (GASB) issued Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. When implemented, it requires new information and restructures much of the information that governments have presented in the past. Comparability with reports issued in all prior years will be affected. The Town was required to implement this standard beginning with the year ended December 31, 2004, but has not done so.

NOTE 3 - DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

3-A Investment Risks

As of December 31, 2007, the Town had the following investments:

Certificate of deposit	\$ 52,329
New Hampshire Public Deposit Investment Pool	1,245,255
Total	<u>\$ 1,297,584</u>

Interest Rate Risk - The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk - State law limits investments to those described in Note 1-D-1. The Town has no investment policy that would further limit its investment choices.

3-B Taxes Receivable

The property tax year is from April 1 to March 31 and all property taxes are assessed on the inventory taken in April of that year. The net assessed valuation as of April 1, 2007, upon which the 2007 property tax levy was based is:

For the New Hampshire education tax	\$183,719,260
For all other taxes	\$185,335,960

The Town subscribes to the semi-annual method of tax collection as provided for by RSA 76:15-a. Under this method, tax bills are due on or around July 1 and December 1 of each year, with interest accruing at a rate of 12% on bills outstanding after the due date. The first billing is considered an estimate only and is one half of the previous year's tax billing. The remaining balance of taxes due is billed in the fall after the New Hampshire Department of Revenue Administration has calculated and approved the Town's tax rate for the fiscal year.

TOWN OF LYNDEBOROUGH, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
DECEMBER 31, 2007

In connection with the setting of the tax rate, Town officials with the approval of the Department of Revenue Administration, establish and raise through taxation an amount for abatements and refunds of property taxes, known as overlay. This amount is reported as a reduction in tax revenue and is adjusted by management for any tax allowances at year-end. The property taxes collected by the Town include taxes levied for the State of New Hampshire, Lyndeborough School District, Wilton-Lyndeborough Cooperative School District and Hillsborough County, which are remitted as required by law. The ultimate responsibility for the collection of taxes rests with the Town.

The tax rates and amounts assessed for the year ended December 31, 2007, were as follows:

	Per \$1,000 of Assessed Valuation	Property Taxes Assessed
Municipal portion	\$5.89	\$ 1,090,722
School portion:		
State of New Hampshire	\$2.28	418,809
Local	\$9.58	1,775,888
County portion	\$0.98	182,237
Total property taxes assessed		<u>\$ 3,467,656</u>

During the current fiscal year, the tax collector executed a lien on May 23 for all uncollected 2006 property taxes.

Taxes receivable at December 31, 2007, are as follows:

Property:	
Levy of 2007	\$ 250,419
Prior levies	7,151
Unredeemed (under tax lien):	
Levy of 2006	44,931
Levy of 2005	13,145
Levies of 2004 and prior	7,622
Timber	1,706
Less: allowance for estimated uncollectible taxes	(55,000)
Net taxes receivable	<u>\$ 269,974</u>

3-C Other Receivables

Other receivables at December 31, 2007, consist of police outside detail fees, and intergovernmental amounts arising from grants.

Receivables are recorded on the Town's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and collectibility.

3-D Interfund Balances and Transfers

Interfund balances at December 31, 2007 consist of overdrafts in the pooled cash, and budgetary transfers not yet made, as follows:

Receivable Fund	Payable Fund	Amount
General	Old Temple Road bridge	\$ 72,533
	Gulf Road bridge	5,445
	Expendable trust	5,834
Conservation commission	General	525
		<u>\$ 84,337</u>

TOWN OF LYNDEBOROUGH, NEW HAMPSHIRE

NOTES TO FINANCIAL STATEMENTS

**AS OF AND FOR THE FISCAL YEAR ENDED
DECEMBER 31, 2007**

Interfund transfers during the year were comprised of voted appropriations and the disposition of trust income as follows:

	Transfers In:					Total
	General Fund	Cemetery Fund	Public Library Fund	Gulf Road Bridge Fund	Expendable Trust Fund	
Transfers out:						
General fund	\$ -	\$ 8,500	\$ 25,640	\$ -	\$ 173,000	\$ 207,140
Expendable trust fund	30,000	-	-	36,680	-	66,680
Nonexpendable trust fund	100	1,958	792	-	-	2,850
Total	<u>\$ 30,100</u>	<u>\$ 10,458</u>	<u>\$ 26,432</u>	<u>\$ 36,680</u>	<u>\$ 173,000</u>	<u>\$ 276,670</u>

3-E Intergovernmental Payable

Amounts due to other governments at December 31, 2007 consist of:

General fund:	
Dog license fees due to the State of New Hampshire	\$ 390
Balance of 2007-2008 district assessment due to:	
Lyndeborough School District	403,417
Wilton-Lyndeborough Cooperative School District	520,306
Trust funds:	
Expendable:	
Balance of funds belonging to the Lyndeborough School District	83,471
Total	<u>\$ 1,007,584</u>

3-F Restatement of Equity

Fund equity at January 1, 2007 was restated to give retroactive effect to the following prior period adjustments:

	General Fund	Capital Project Fund
To write off a portion of interfund as uncollectible	\$ (8,183)	\$ -
To record State receivable/revenue attributable to prior year activity	-	30,911
Fund balance, as previously reported	364,072	-
Fund balance, as restated	<u>\$ 355,889</u>	<u>\$ 30,911</u>

NOTE 4 - OTHER MATTERS

4-A Pensions

The Town of Lyndeborough participates in the New Hampshire Retirement System (the System) which consists of a cost-sharing, multiple-employer contributory pension plan and trust established in 1967 by RSA 100-A:2 and is qualified as a tax-exempt organization under Sections 401(a) and 501(a) of the Internal Revenue Code. The plan is a contributory, defined benefit plan providing service, disability, death and vested retirement benefits to members and their beneficiaries. Provisions for benefits and contributions are established and can be amended by the New Hampshire Legislature. The System issues a publicly available financial report that may be obtained by writing the New Hampshire Retirement System, 54 Regional Drive, Concord, NH 03301.

TOWN OF LYNDEBOROUGH, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE FISCAL YEAR ENDED
DECEMBER 31, 2007

The System is financed by contributions from both the employees and the Town. Member contribution rates are established and may be amended by the State legislature while employer contribution rates are set by the System trustees based on an actuarial valuation. All employees except police officers are required to contribute 5% of earnable compensation. Police officers are required to contribute 9.3% of gross earnings. For the first six months of 2007, the Town contributed 9.68% for police and 6.81% for other employees. As of July 1, 2007, those rates increased to 11.84% for police and 8.74% for other employees. The contribution requirements for the Town of Lyndeborough for the fiscal years 2005, 2006 and 2007 were \$12,659, \$11,075 and \$9,684, respectively, which were paid in full in each year.

The State of New Hampshire funds 35% of employer costs for police officers employed by the Town. This amount, \$5,215, is reported as an "on-behalf" payment," as an expenditure and revenue on the statement of revenues, expenditures and changes in fund balances for all governmental fund types and expendable trust funds (Exhibit B).

4-B Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or natural disasters. During fiscal year 2007, the Town was a member of the Local Government Center Property-Liability Trust, LLC and the New Hampshire Public Risk Management Exchange (Primex) Workers' Compensation Program. These entities are considered public entity risk pools, currently operating as common risk management and insurance programs for member towns and cities.

The Local Government Center Property-Liability Trust, LLC is a Trust organized to provide certain property and liability insurance coverages to member towns, cities and other qualified political subdivisions of New Hampshire. As a member of the Local Government Center Property-Liability Trust, LLC, the Town shares in contributing to the cost of, and receiving benefits from, a self-insured pooled risk management program. The membership and coverage run from July 1 to June 30. The program maintains a self-insured retention above which it purchases reinsurance and excess insurance. This policy covers property, auto physical damage, crime, general liability and public officials' liability subject to a \$1,000 deductible.

Contributions paid in 2007 for fiscal year 2008, ending June 30, 2008, to be recorded as an insurance expenditure totaled \$17,889. There were no unpaid contributions for the year ending June 30, 2008 and due in 2007. The trust agreement permits the Trust to make additional assessments to members should there be a deficiency in Trust assets to meet its liabilities. At this time, the Trust foresees no likelihood of any additional assessments for past years.

The New Hampshire Public Risk Management Exchange (Primex) Workers' Compensation Program is a pooled risk management program under RSAs 5-B and 281-A. The workers' compensation policy provides statutory coverage for workers' compensation. Primex retained \$500,000 of each loss. The membership and coverage run from January 1 through December 31. The estimated net contribution from the Town of Lyndeborough billed and paid for the year ended December 31, 2007 was \$18,485. The member participation agreement permits Primex to make additional assessments to members, should there be a deficiency in contributions for any member year, not to exceed the member's annual contribution. At this time, Primex foresees no likelihood of any additional assessment for this or any prior year.

4-C Contingent Liabilities

The Town has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could result in a request for reimbursement from the grantor agency for costs disallowed under terms of the grant. Based on prior experience, the Town believes such disallowances, if any, will be immaterial.

INDEPENDENT AUDITOR'S COMMUNICATION OF CONTROL DEFICIENCIES AND OTHER MATTERS

To the Members of the Board of Selectmen
Town of Lyndeborough
Lyndeborough, New Hampshire

In planning and reporting our audit of the financial statements of the Town of Lyndeborough as of and for the fiscal year ended December 31, 2007, in accordance with auditing standards generally accepted in the United States of America, we considered the Town of Lyndeborough's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Lyndeborough's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Lyndeborough's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified a deficiency in internal control that we consider to be a significant deficiency and another deficiency that we consider to be a material weakness.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Town of Lyndeborough's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Town of Lyndeborough's financial statements that is more than inconsequential will not be prevented or detected by the Town of Lyndeborough's internal control. We consider the following deficiency to be a significant deficiency in internal control.

Town Policies

Good control policies require that management and employees establish and maintain an environment throughout the Town that sets a positive and supportive attitude toward internal control and conscientious management. The control environment established by the Board of Selectmen sets the tone for how the Town employees and elected officials conduct its business.

As the Board of Selectmen, Trustees of Trust Funds, Library Trustees and department heads strive to achieve the goals of the Town and provide accountability for their operations, they need to continually examine internal controls to determine how well they are performing, how they may be improved and the degree to which they help identify and address major risks for fraud, waste, abuse and mismanagement.

We noted that while there is an effort to do so, the Town has not yet established any formally adopted policies for code of ethics, anti-fraud, or credit card use, which are essential tools necessary to manage the Town's operations efficiently and effectively.

We strongly recommend that the Board of Selectmen develop and formally adopt the above noted policies in order to clearly communicate the Town's position on these issues. Adopting the various policies is critical in preventing interruptions due to personnel vacancies and facilitating supervision and evaluation, and will also help to minimize the risk of losses.

Town of Lyndeborough
Independent Auditor's Communication of Control Deficiencies and Other Matters

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Town of Lyndeborough's internal control. We believe that the following deficiency constitutes a material weakness.

Financial Statement Preparation

The Town of Lyndeborough has a material weakness in their internal control system over financial statement preparation. The Town's financial statements were prepared by the auditor, however, the Town does not have the expertise to evaluate whether the financial statements are in compliance with generally accepted accounting principles. We recommend that the Town take steps to correct this weakness in its internal controls, possibly by hiring a qualified consultant to evaluate the financial statements on its behalf.

We also want to discuss the following issues of non-compliance with New Hampshire statutes:

Investment Policy

We noted that the Selectmen do not have a formally adopted investment policy.

New Hampshire RSA 41:29; *Town Treasurer*, states in part "At least yearly, the selectmen shall review and adopt an investment policy for the investment of public funds in conformance with the provisions of applicable statutes."

We recommend that the Board of Selectmen formally adopt investment policies and review them on an annual basis, and that such investment policies address credit risk, custodial credit risk, concentration of credit risk, interest rate risk and foreign currency risk.

Tax Collector

RSA 80:70 *Notification to Registrar of Deeds of Redemption* requires the tax collector to notify the Registrar of Deeds within 30 days when a full redemption is made. In 2007, eight of ten redemptions sent to the Registrar failed to meet the 30 day statutory requirement. We recommend that redemption reports be sent to the registry on the same day each month to ensure compliance with the statute.

RSA 76:11-b *Notice of Arrearage* requires the tax collector to provide the owner of a property, a summary of all uncollected and unredeemed taxes on the property. This summary must be provided within 90 days of the due date of the final tax bill. For 2007, this notification was made approximately 120 days after the date due.

We recommend that the notices of arrearage be sent in a timely manner in the future.

This communication is intended solely for the information and use of management, the board of selectmen, others within the organization, and state and federal agencies, and is not intended to be and should not be used by anyone other than these specified parties.

Selectmen's Response to Auditor's Report

After several questions about the auditor's report in the Town Report, we felt that it would be helpful to explain the reason for the adverse opinion. Here is a letter from the New Boston Board of Selectmen that we have adapted to Lyndeborough. Our auditors have reviewed this letter and approved it.

Beginning in 2004, the Government Accounting Standards Board (GASB) made it a requirement that Statement # 34 (Basic Financial Statements – and Management Discussion and Analysis – for State and Local Governments) be implemented for towns the size of Lyndeborough. If a governmental unit failed to report assets as required, the auditors must so note in their report and find that the town's financial records are not in compliance with standard accounting practices. This year's audit report does just that.

GASB 34 makes two major changes. First, it requires that various financial information be reported differently. And second, all capital assets such as buildings, roads, utilities such as water or sewer systems, and equipment must be identified, given a value, and then depreciated as appropriate. Previously, doing so was encouraged but failure to account for them in such detail did not result in a strong statement from the auditors. The idea behind the change was to give those who might invest in government bonds a better idea as to the financial health of the governmental unit issuing the bond. The condition and worth of these capital assets is an important component in such an analysis.

The requirement to value our fixed assets and to do so while also restating much of our financial information will result in a much more costly audit charge because there is considerable more work involved. We would begrudgingly accept this state of affairs if there was going to be some benefit to the town; but there is not. The federal government still plans to allow towns not in compliance to receive federal grant monies and the NH Bond Bank, where we place our bonds if we have one, has told us compliance is not required in order for us to use them for placement of our bonds. This being the case, we see no need to make the changes required by GASB 34.

As a result of our decision not to value our fixed assets, the auditors must report us as out of compliance. In all other regards, however, our books are in order. The auditors still report any specific problems with our accounts should they find any. In deciding to ignore GASB 34 we join many other towns in the state except those large enough to want to issue their own bonds.
